

SHAVING CABINETS

Installation & Owner Guide

THIS PRODUCT MUST BE INSTALLED BY A QUALIFIED TRADESMAN

*Valid from 1st August 2025.

Ingrain is a brand that celebrates the beauty and intricacy of natural materials. Our products are crafted with a keen eye for detail and passion for showcasing unique textures and patterns found in nature. We believe that the materials we use should be celebrated and appreciated, and our designs aim to showcase this in every piece.

At Ingrain, we believe that the beauty of design lies in the details - and nothing adds depth and character to a space quite like texture. Our mission is to elevate the spaces you inhabit by providing unique and quality products that speak to your individual style.

We carefully curate our collection of materials, sourcing locally and from all corners of the globe to ensure that each piece we offer is truly beautiful for your home. Whether it's the warm, earthy feel of our reclaimed and sustainably sourced and hand-crafted Australian timber vanity series, the luxurious detailing of our painted and veneer collections, our low silica sintered stone vanity tops, or the understated elegance of our mirrors and shaving cabinets, each product has its own story to tell.

At Ingrain our responsibly sourced Australian timbers are full of character. We take great care when selecting timber, looking for a consistent grain to achieve the best finish for each furniture piece. The characters and textures found in timber are what we celebrate; every knot, grain, growth mark and vein provide the timber with unique characteristics. These features mean that you get something truly beautiful for your home, something uniquely yours and one-of-a-kind.

PRE-INSTALLATION CHECK

- **Please open and inspect your product upon delivery.** The Blue Space must be notified of any faults, issues, or complaints with your Ingrain product within 24 hours of you receiving delivery.

WARRANTY TERMS & CONDITIONS

Ingrain guarantee that all products sold are free from **manufacturing faults and defects with a 5-year warranty* from the date of original delivery.** We use only the highest quality of furniture grade timbers. Combining traditional craftsmanship and modern technology, we aim to make furniture that will last a lifetime when used as intended.

Proper handling and care for each product is essential to guarantee longevity, no product should ever be dragged or stood on as glass is fragile and can easily break.

For peace of mind when buying with The Blue Space, you are covered by:

- Our 30-day return or exchange policy.
- Insurance on all product deliveries. Please note, goods need to be inspected **within 24 hours** of delivery for breakages.
- Free change of mind policy if changing your mind within 24 hours of purchasing (if your goods have not been shipped out).

Natural environmental factors will affect the condition of furniture which can lead to cupping, timber splitting, shrinkage, expansion, and timber finish discoloration which unfortunately cannot be warranted.

*The glass component is covered under warranty for 2 years.

If you need help caring for your Ingrain products, don't hesitate to reach out to our team at The Blue Space. We're always happy to answer your questions. You can email us at info@thebluespace.com.au

CARE & MAINTENANCE

TIMBER SHAVING CABINETS

- Promptly wipe off any spills or moisture on timber products.
- Avoid using chemical cleaning products directly on timber products.
- Use a damp cloth to clean your timber products and a dry cloth to follow.
- Avoid installing or placing products in direct sunlight or high humidity environments.
- To prevent damage, ensure proper room ventilation and wipe off any water from the product.

Our timber products have a 2pac polyurethane matte finish that offers mild scratch protection. However, exercise caution when placing ceramics or heavy items on the surface.

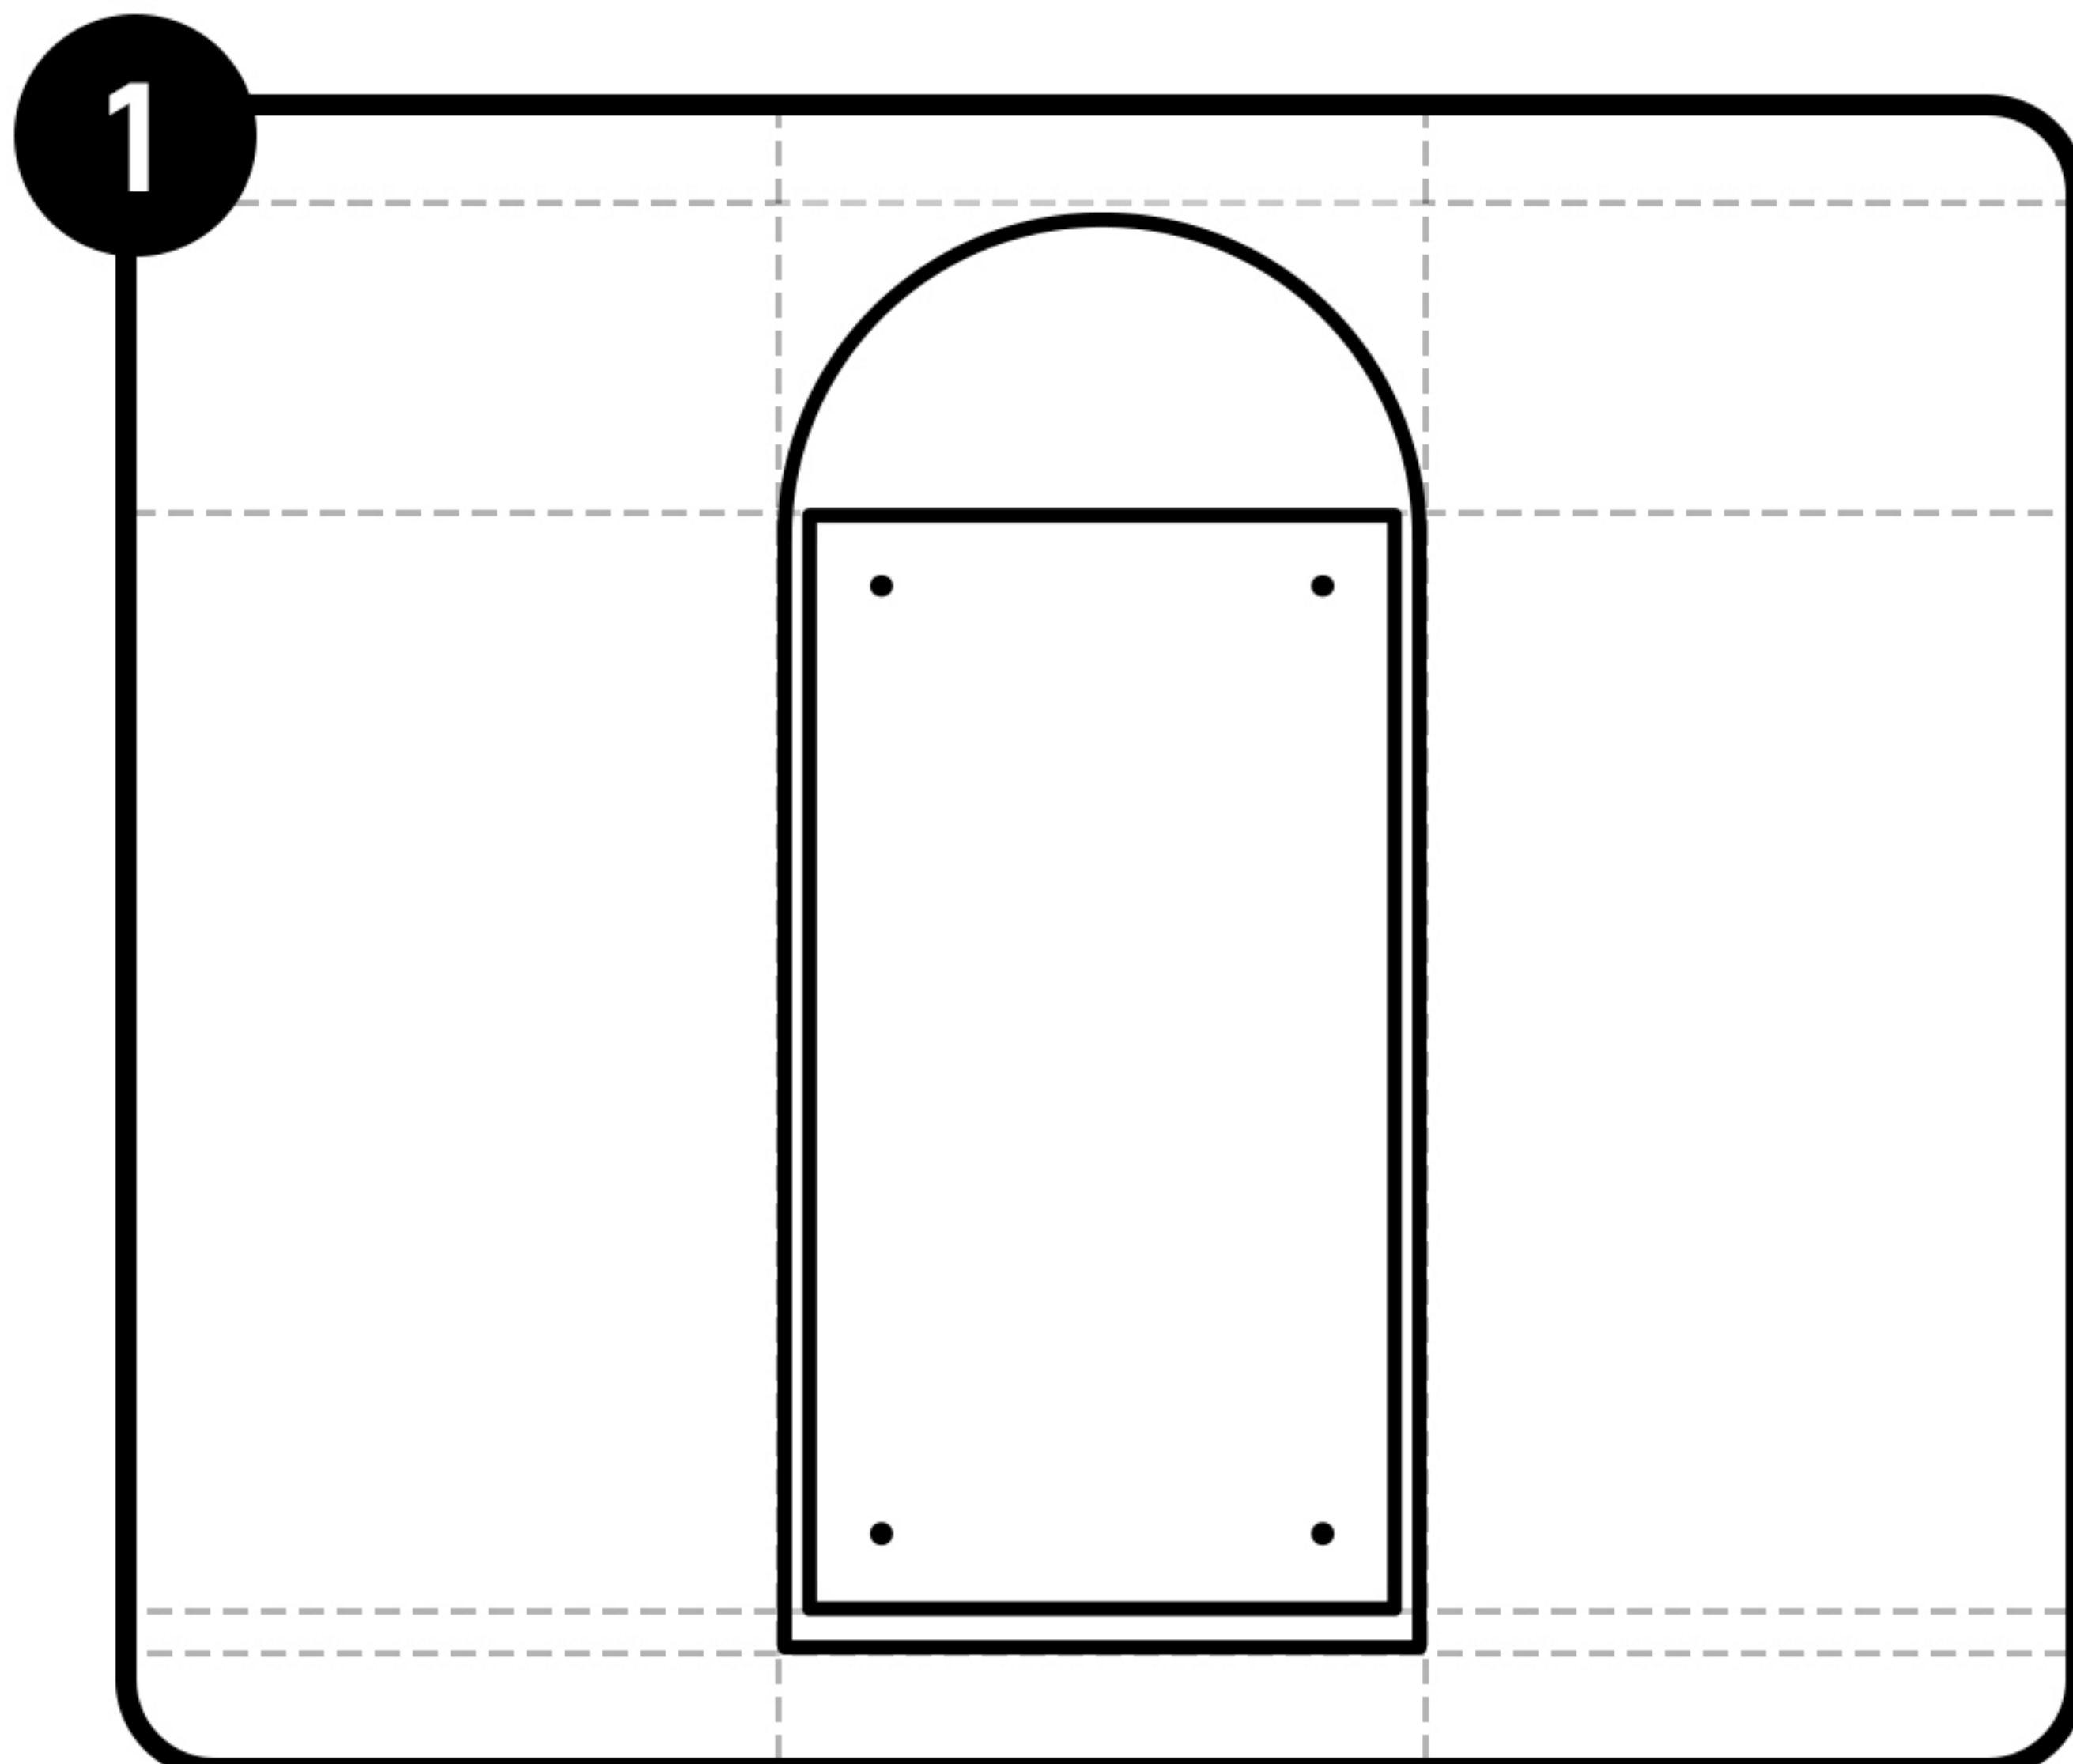

- It is recommended to use coasters or a protective layer between the product and any items you place on top.

MIRRORS

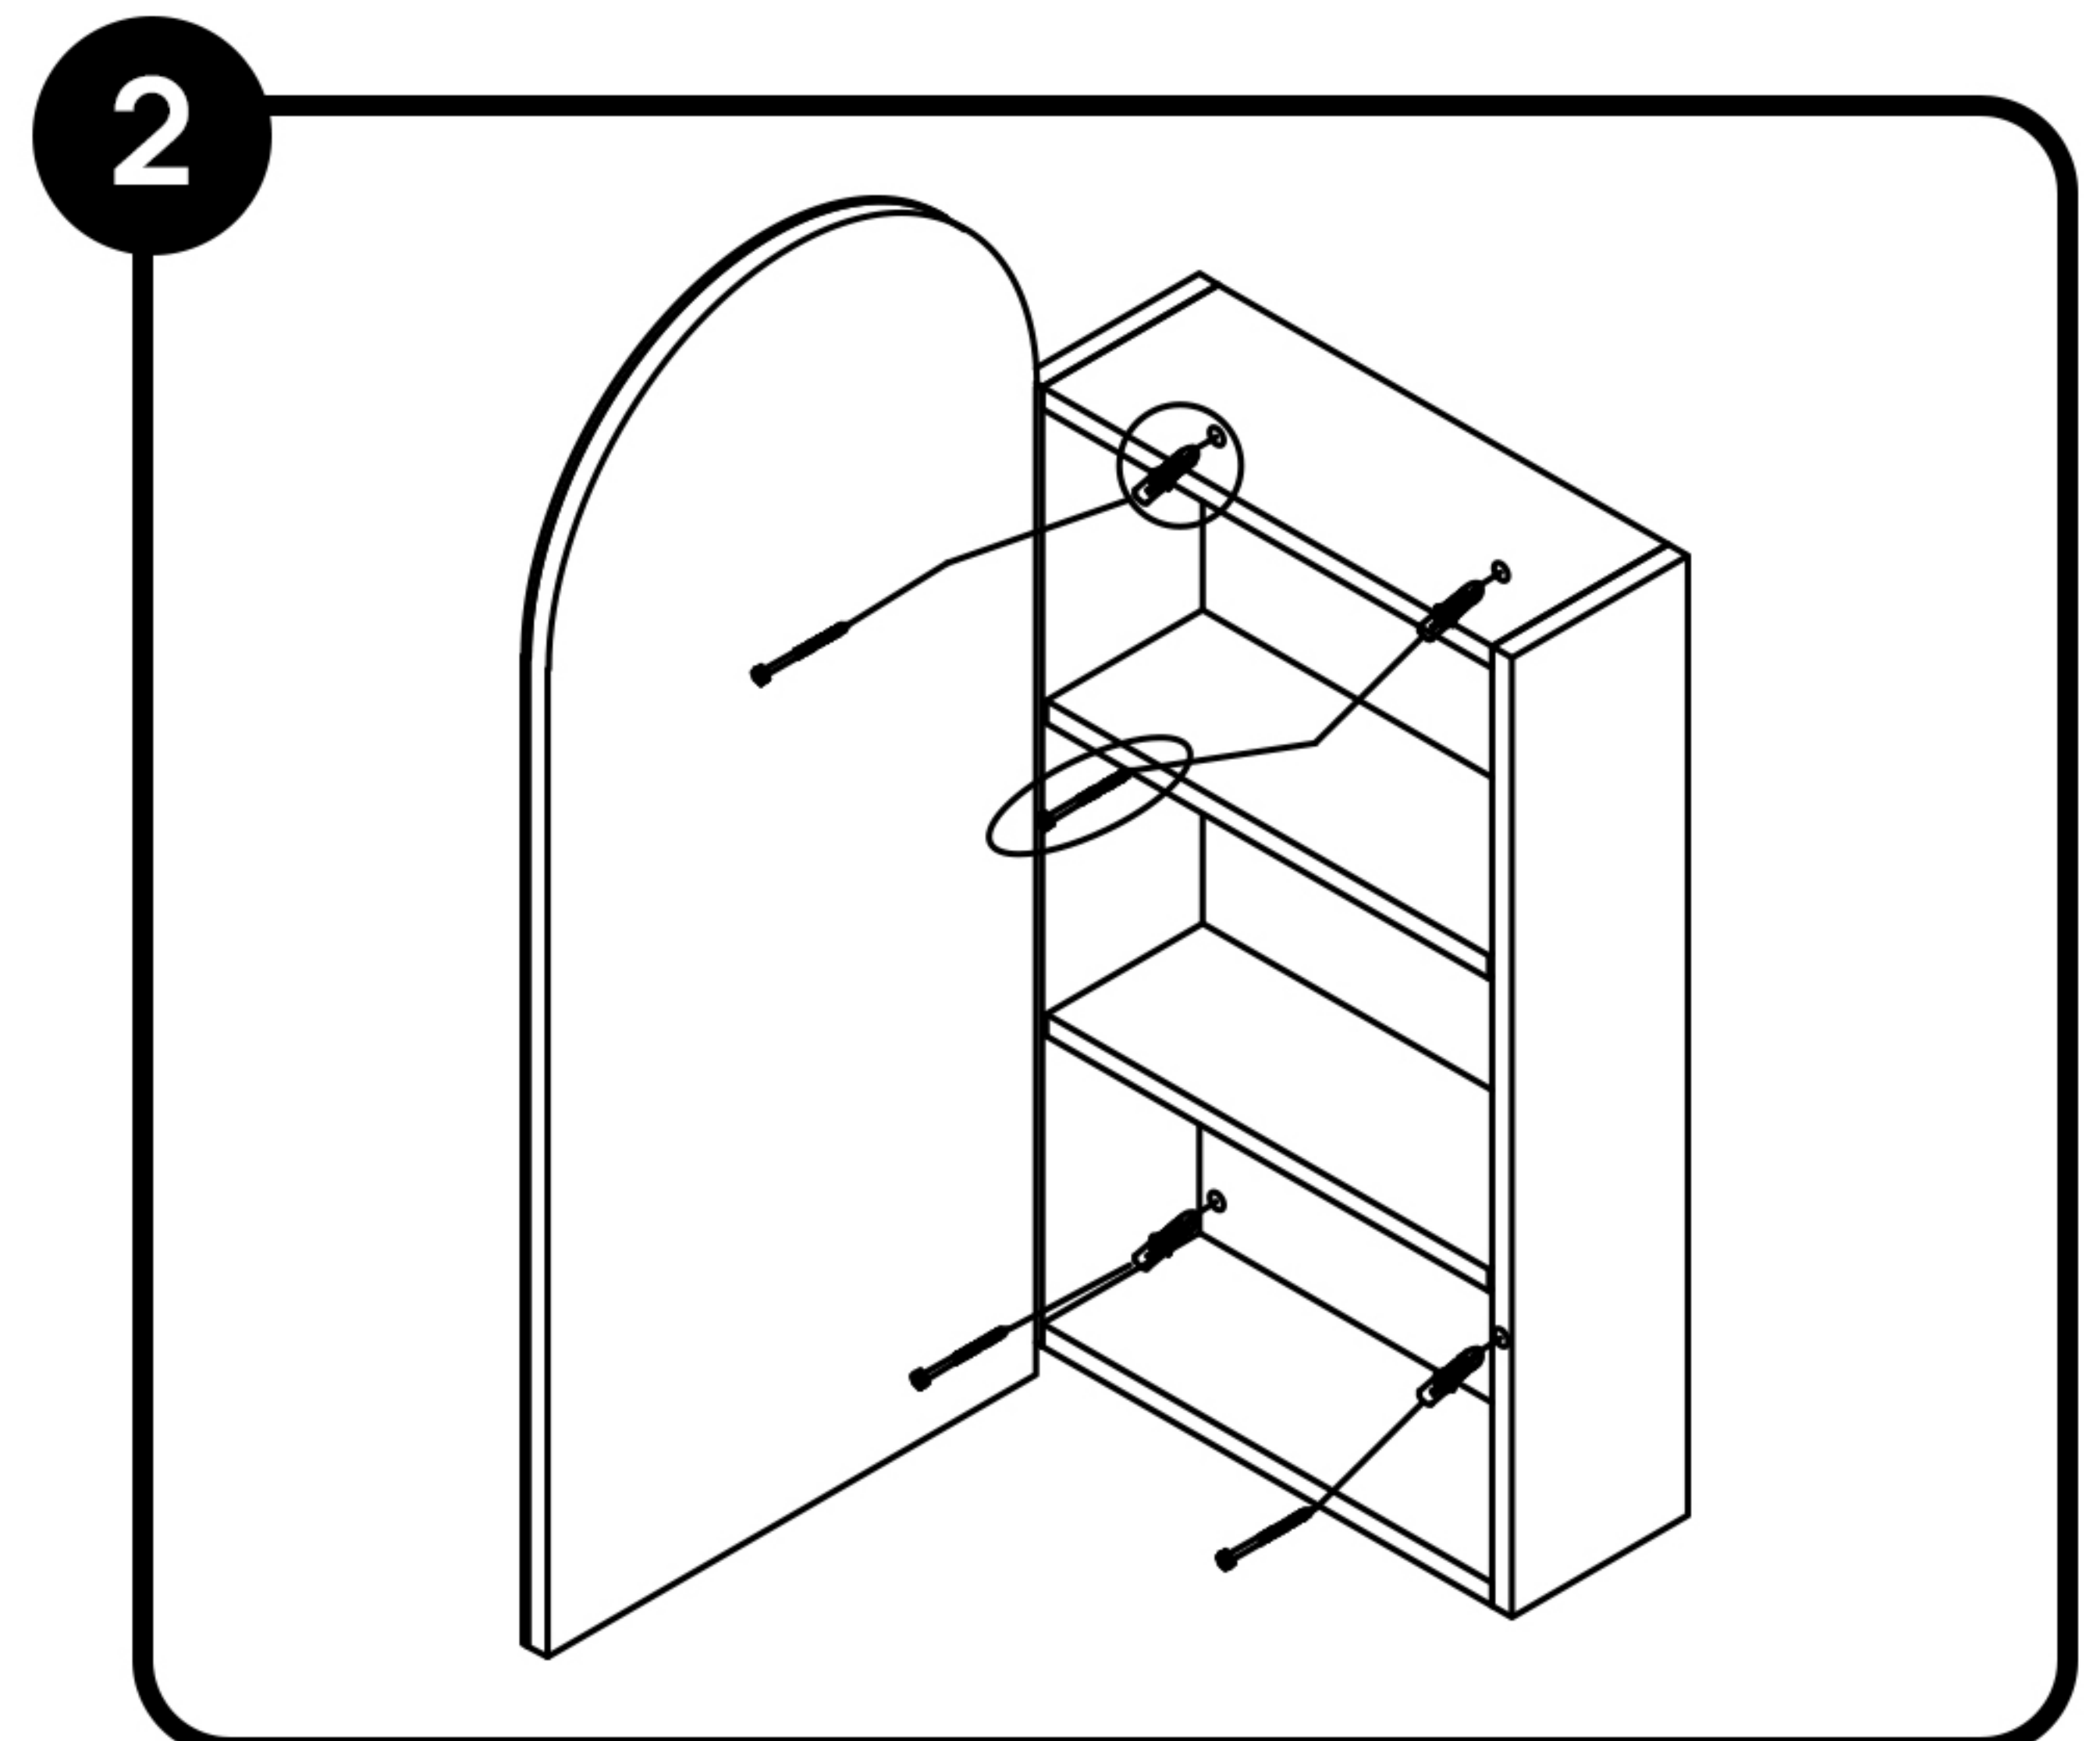

It is important to exercise caution when it comes to keeping the edges of a mirror dry and free from any liquids or substances. Failure to do so can lead to damage known as 'black edge'. If your mirror does get wet, it is crucial to promptly dry it off. Here are some recommendations:

- The safest and most effective way to clean a mirror is by using clean, warm water along with a soft cloth that does not leave lint. Before wiping the mirror, make sure to wring out any excess water from the cloth. Afterward, dry the mirror immediately using a dry lint-free cloth.
- Avoid using acid or alkali-based cleaners to clean the mirror after installation, as these substances can harm the front surface, edges, and backing of the mirror. It is important to never use any abrasive cleaners on any part of the mirror.
- Refrain from spraying cleaners directly onto the mirror. Instead, apply the cleaner onto a soft lint-free cloth and then proceed to wipe the mirror. This approach helps prevent the cleaner from coming into contact with the edges of the mirror, thus reducing the risk of damage.
- Do not use commercial mirror cleaners that contain ammonia or vinegar.

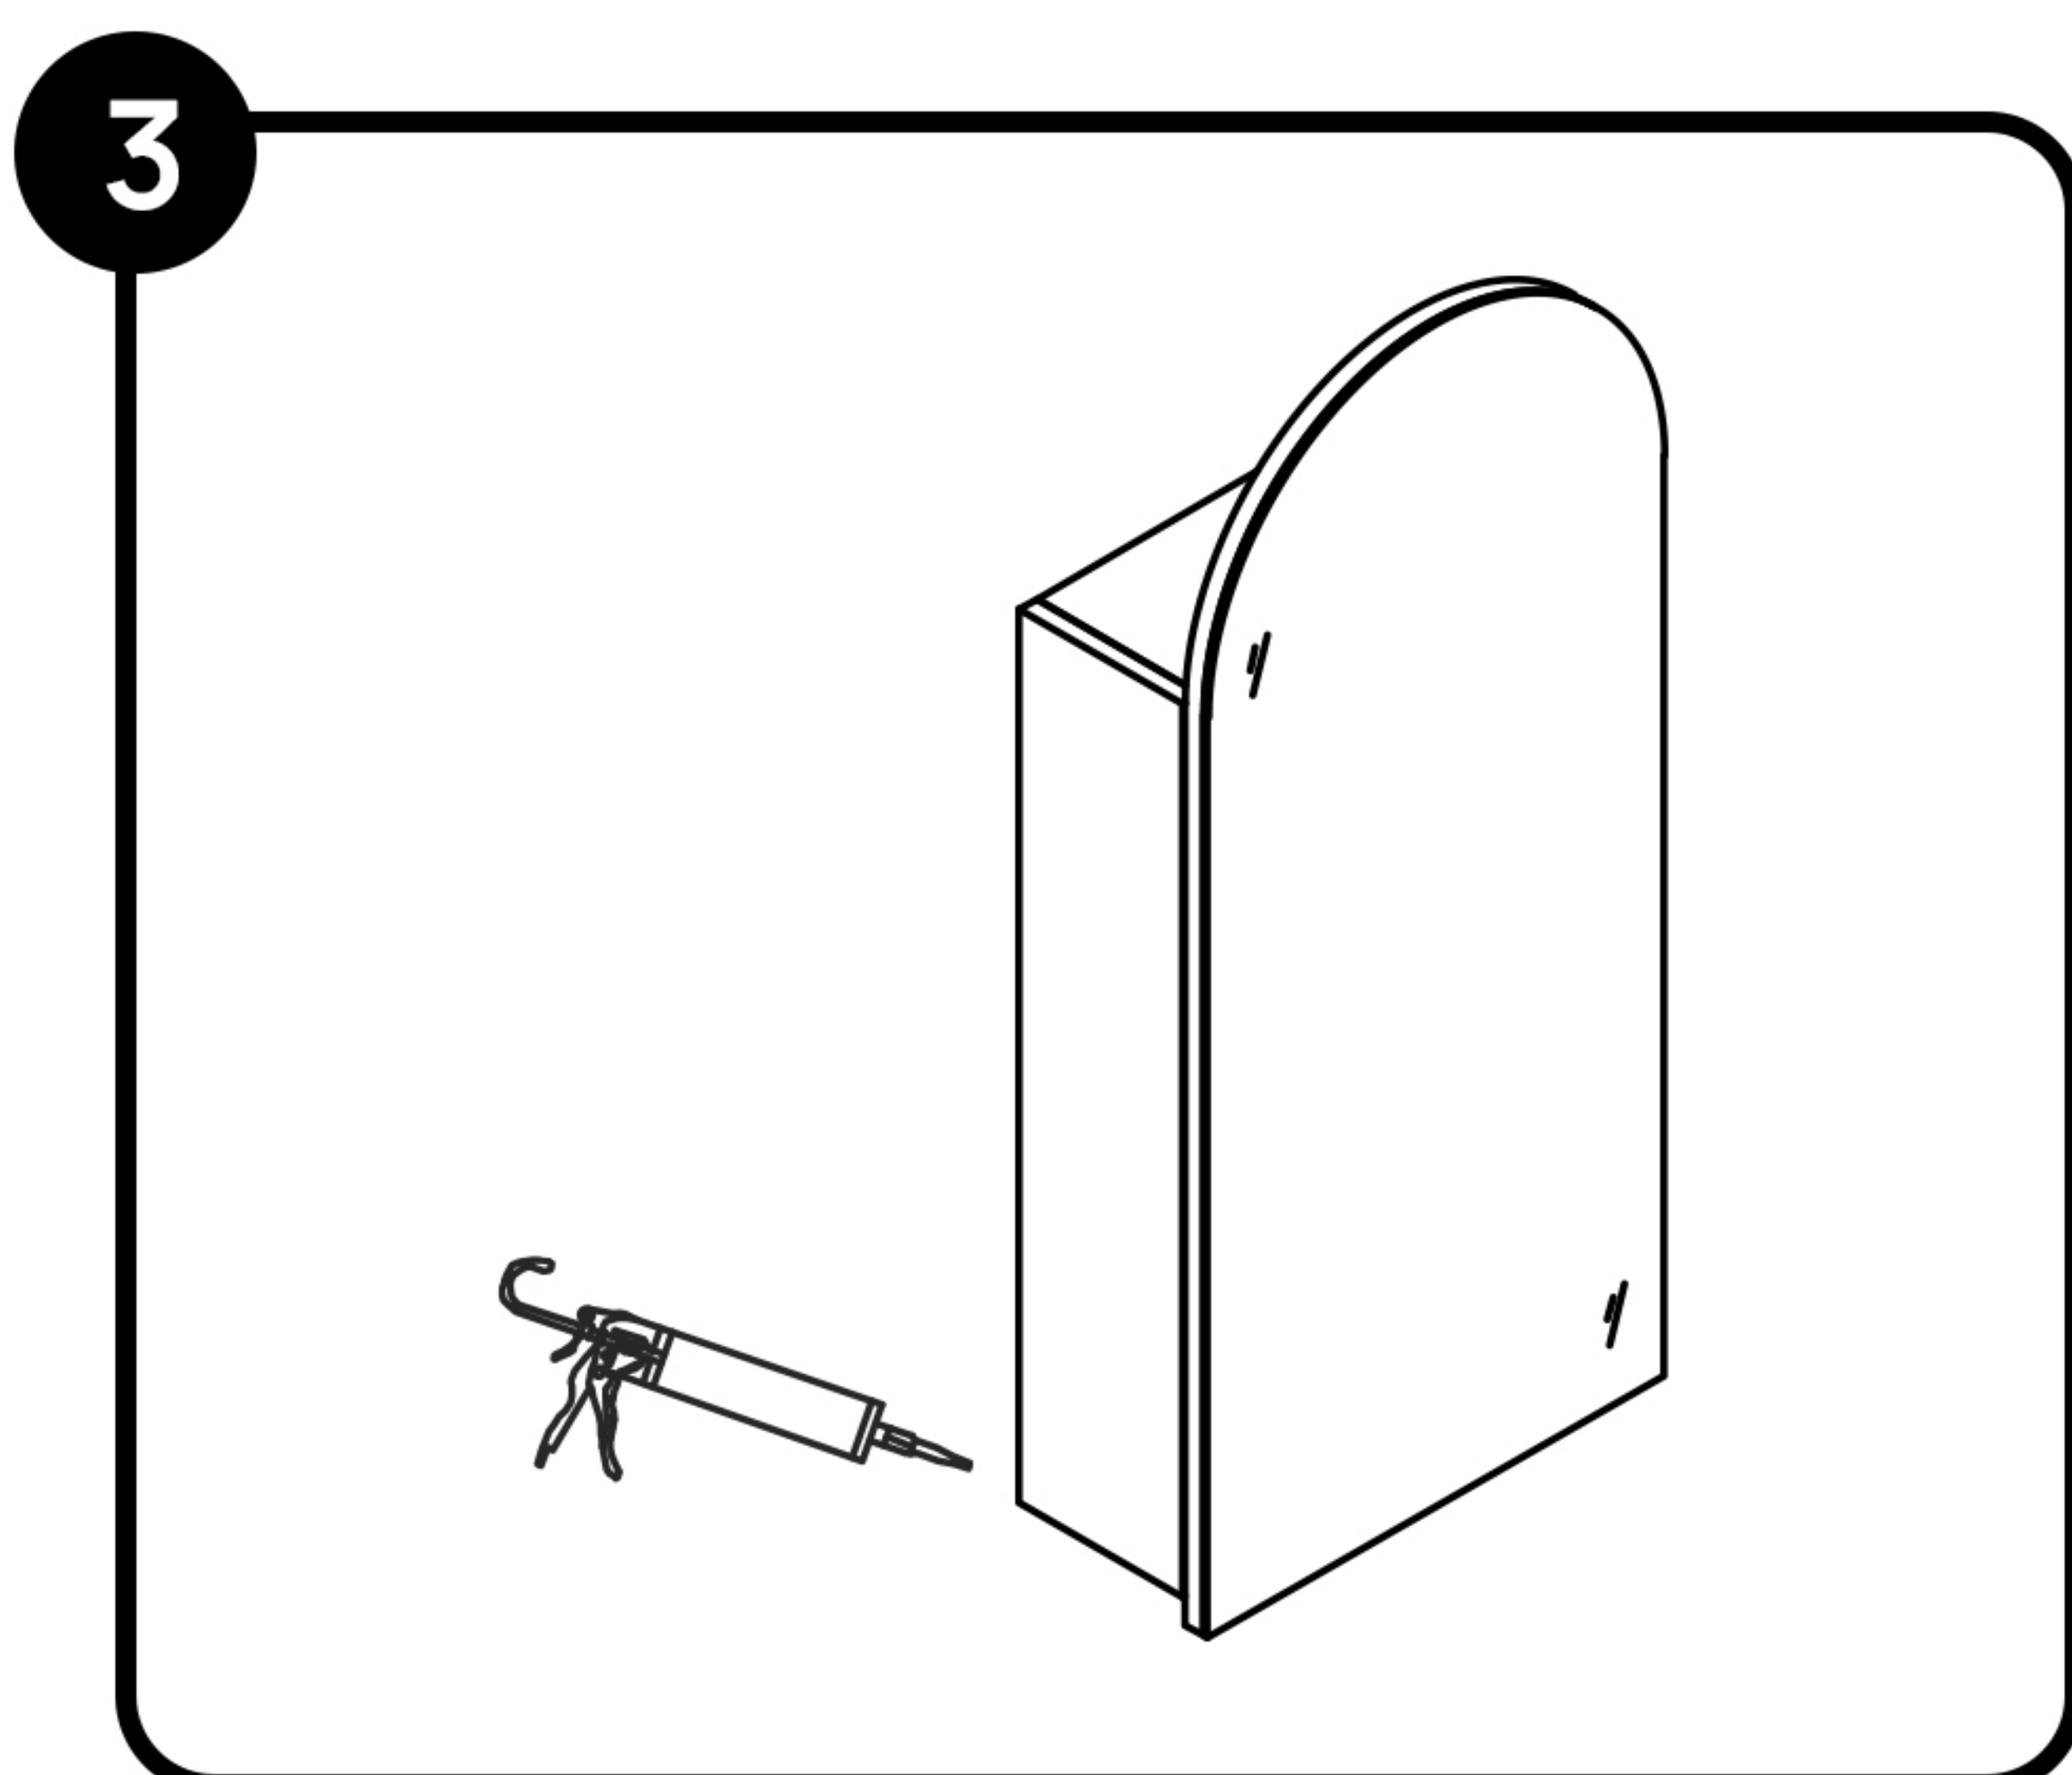

SHAVING CABINET INSTALLATION GUIDE

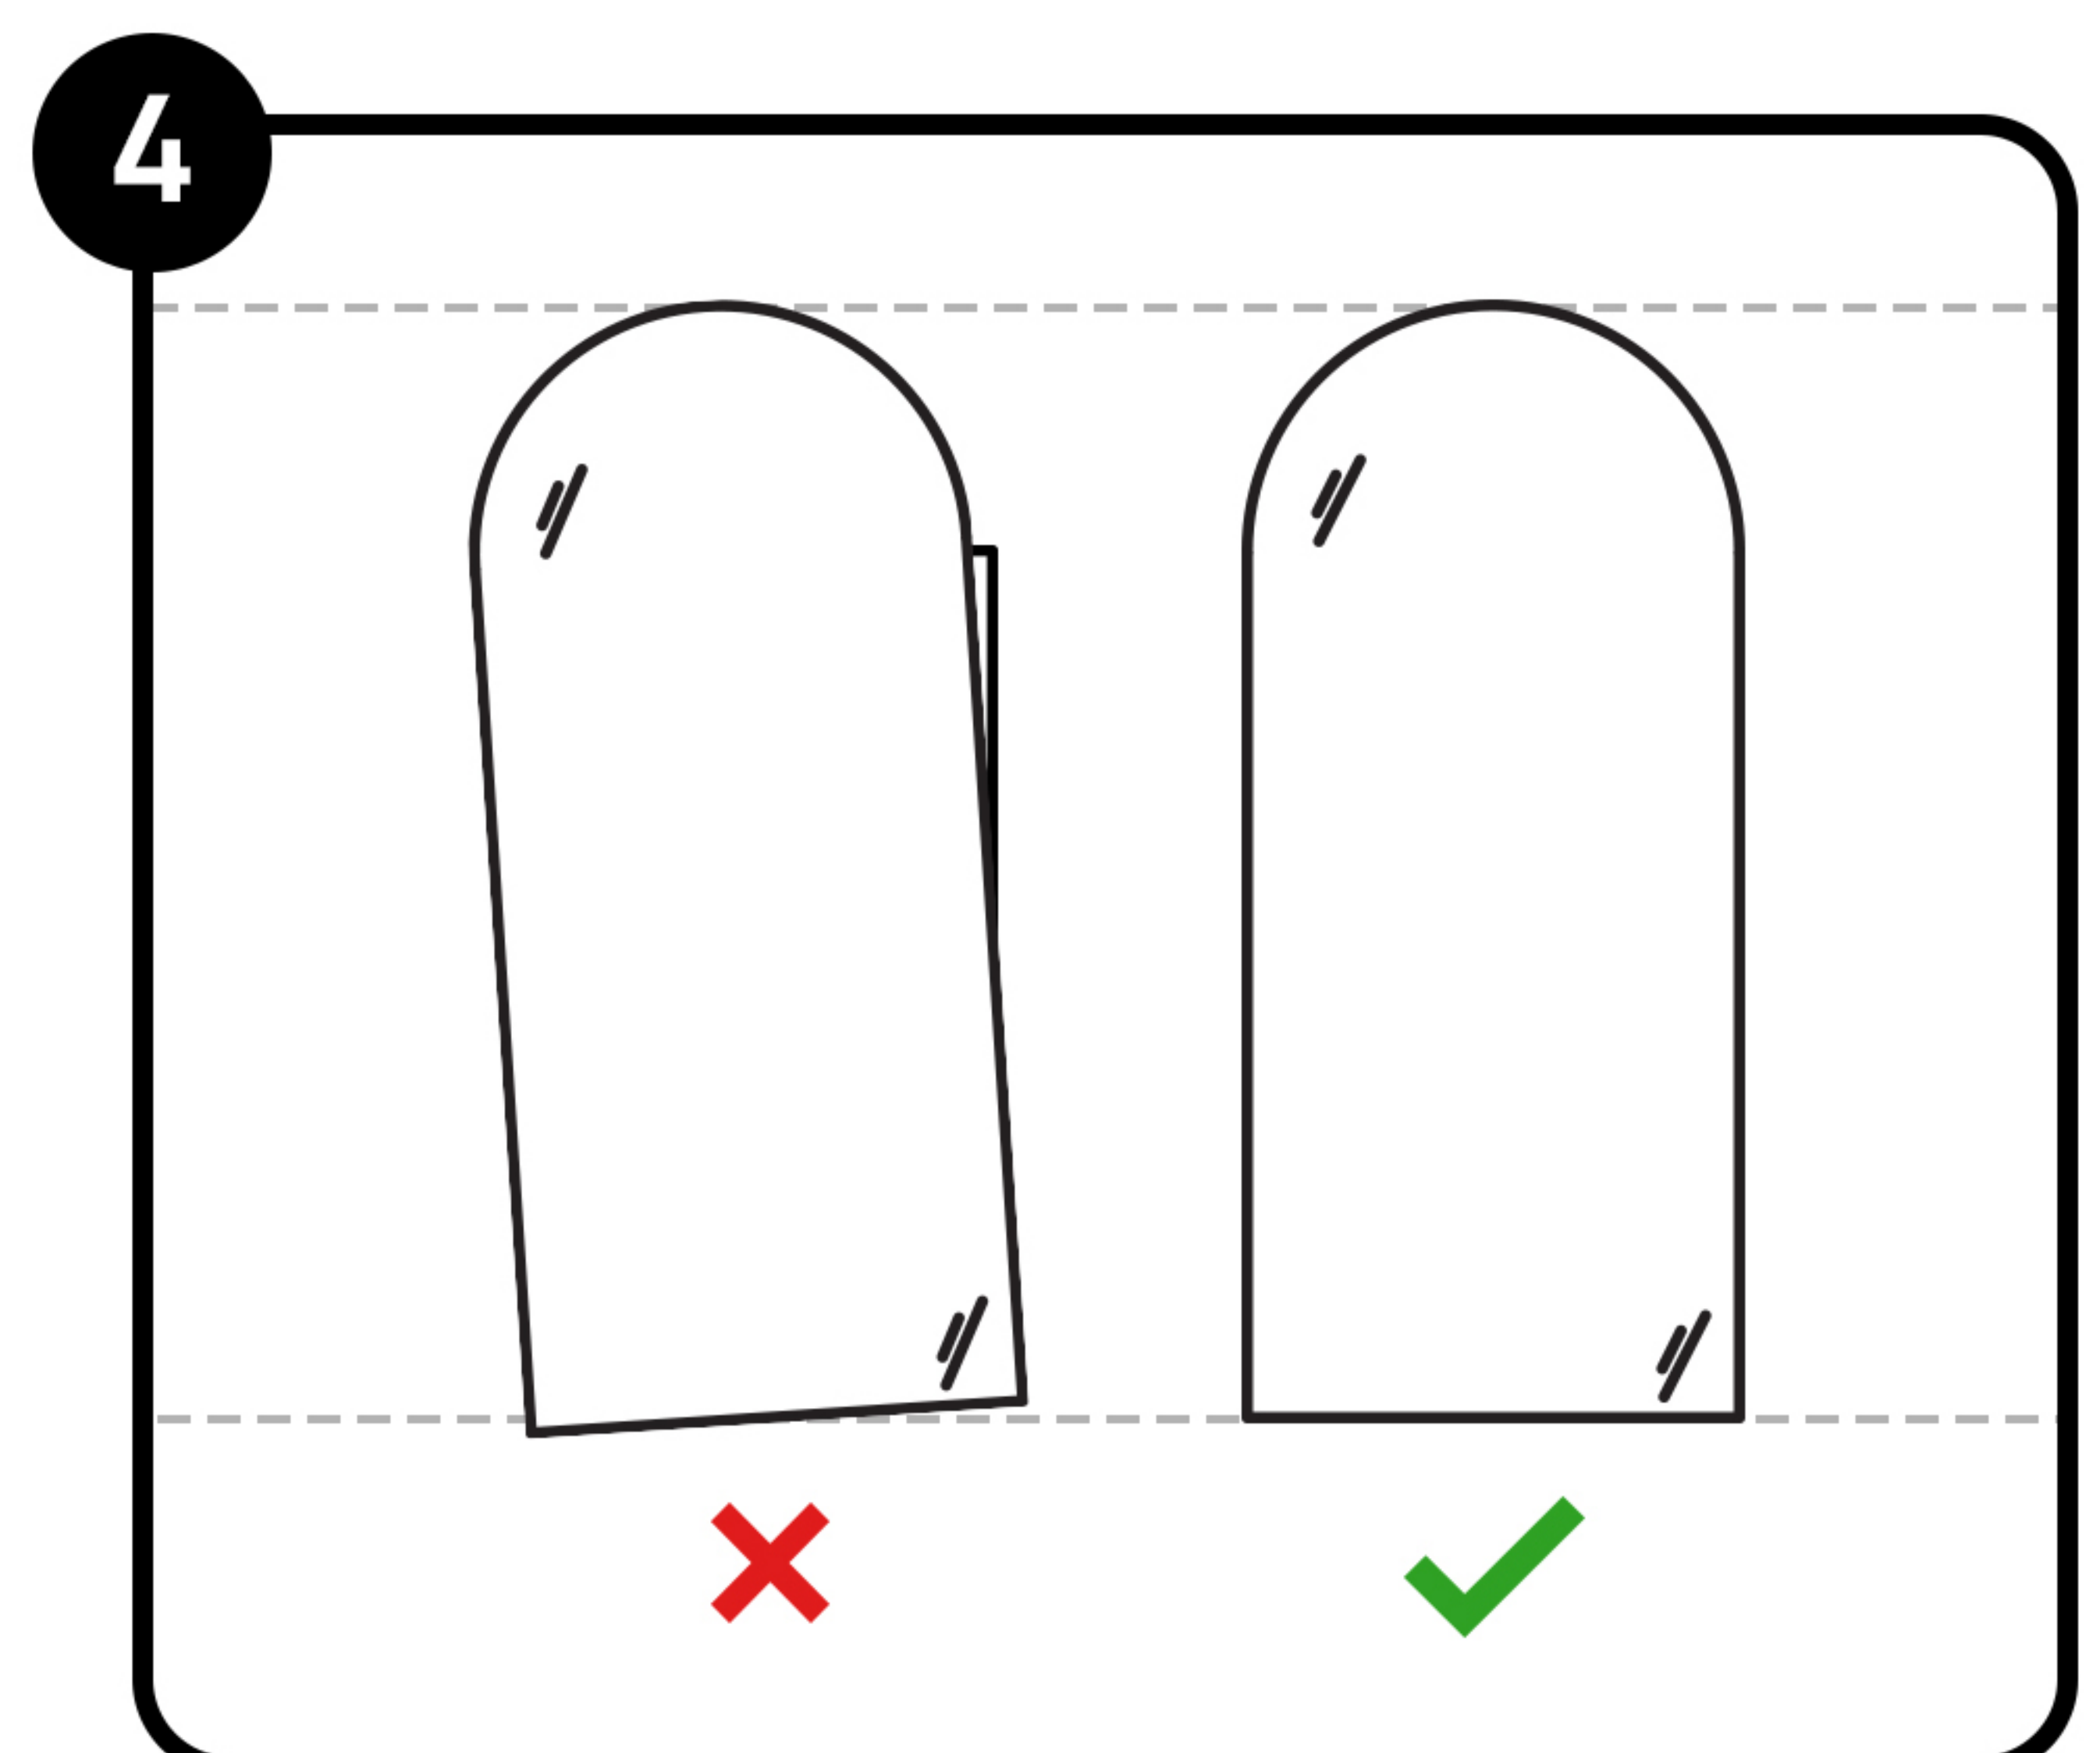

Secure the cabinet to the wall with screws that match the stud material and have a pan or counter sunk head. Position the cabinet accordingly.

Secure cabinet with a horizontal row of screws 100mm from top, maximum 300mm apart. The screws on the left and right edges of the cabinet should be within 100mm of each side.

Apply non-acidic silicone to all edges where cabinet meets the wall.

Make the necessary adjustments to the doors and drawers so that they are aligned correctly.

NOTE:

The installer is responsible for ensuring that the cabinets are properly adjusted after installation. Any warranty claims will not be considered until this adjustment process is complete.
