

TriFlo Energy Efficient Eco Spa Pump

DECINA
DISCOVER INDULGENCE

Decina's new energy-efficient TriFlo Eco spa pump, now available in the Contour and Dolce Vita spa ranges. The Eco pump will replace the current touchpad and spa key pump models previously used in these spa baths.

The Eco pump features advanced technology that utilizes a heat transfer system from the motor to help maintain water temperature. This eliminates the need for a heating element, resulting in significant energy savings. Additionally, it remains a Plug & Play system with a 10-amp power source, ensuring easy installation and servicing.

- Eco Touch pad for the Contour Spa range*
- Eco Key for the Dolce Vita Spa range
- The "Auto-Heat" TriFlo will help maintain your spa bath water temperature during your spa by heat transfer.
