*Dimensions are nominal measurements only.

*Flow controller pre-installed.

MAINTENANCE AND CARE

- Regularly check the showerhead and all connections for signs of wear or leaks.
- Clean the showerhead with mild soapy water to maintain their appearance, avoiding harsh chemicals and abrasive materials that may damage the finish.
- Descale the showerhead periodically to prevent mineral buildup, which can affect water flow and performance.
- Inspect and replace any worn-out parts, such as seals or washers, to ensure the longevity and efficiency.
- Ensure all moving parts, such as adjustable brackets or sliding rails, are functioning smoothly and are properly lubricated if necessary.
