

BABY BATH INSTALLATION GUIDE

Thank you for purchasing a Turner Hastings Acrylic Baby Bath. If you have any questions during the installation of this product, please do not hesitate to call us on 1300 00 2284.

BEFORE YOU BEGIN

- Read these instructions carefully before you begin this installation.
- Observe all local plumbing and building codes.
- Prior to installation, unpack the new baby bath and inspect it for damage. Return the bath to its protective carton until you are ready to install it.
- It is very important that proper high-quality materials and silicones are used with your bath .
- The cabinet and frame shown in these instructions are generic and may not represent the actual design or structure.
- All information in these instructions is based on the latest product information available at the time of publication.

1. Place the bath upside down on the bench top. Trace around the outer edges on the bench top. 	2. Draw a second line the correct distance inside the marked line based on the bath. 	3. Cut out the bench top on the inside line. 
4. Install the waste in the bath, using silicone between the top flange and the bath. 	5. Apply silicone around the edge of the bath. 	6. Place the bath into the benchtop, wipe away excess silicone, and leave to cure for 24 hours before use.
