Fitting Instructions

"MORE THAN JUST QUALITY — **AN EXPERIENCE**"

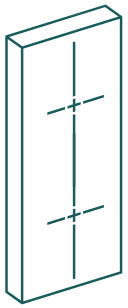

BACK TO BACK FIXING

1

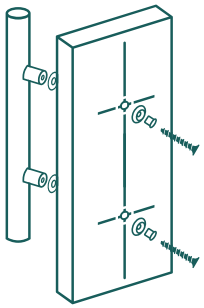

Mark fixing position on door. Ensure adequate space is provided for clearance of knuckles on door jamb.

2

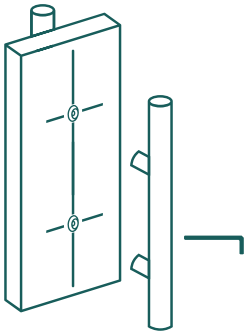

Drill holes for through bolts.
(For glass doors, allow for neoprene sleeves)

3

Mount outside handle by bolting through door. Include the mounting base for inside handle.
(Only use neoprene sleeves and washers for glass doors)

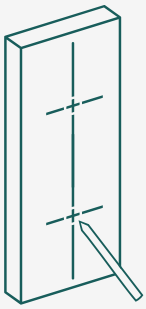

4

Fix inside handle over cylindrical mount and fasten with Allen screws

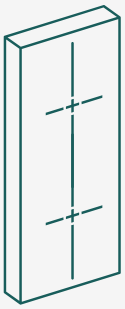

SINGLE HANDLE REAR FIXING

1

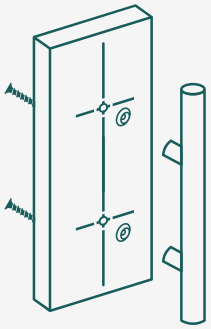

Mark fixing position on door. Ensure adequate space is provided for clearance of knuckles on door jamb.

2

Drill holes for through bolts.

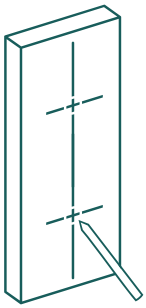

3

Mount outside handle by bolting through door.

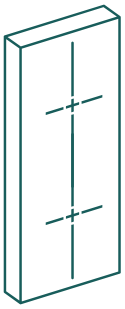

SINGLE HANDLE FACE FIXING

1

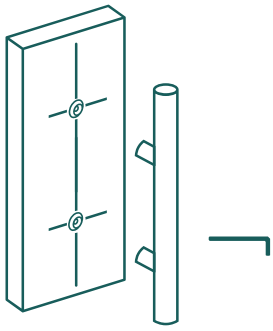

Mark fixing position on door. Ensure adequate space is provided for clearance of knuckles on door jamb.

2

Screw mounting bases to face of door using large screws supplied.

3

Fix handle over cylindrical mount and fasten with Allen screws.

NOTE: Face fixing is not recommended on Cedar or other soft timber doors.
