## Installation Steps

1. Carefully unpack your new fixture and lay out all the parts on clean surface. Take care not to lose any small parts necessary for installation.
2. Select the appropriate color temperature by turning the CCT switch: 3000K, 3500K, 4000K.
3. Thread fixture wires through the mounting bracket.
4. Make wire connections: Attach ground wire to building ground wire using a wire nut or attach them to the mounting plate with a green ground screw.
  - FOR DIMMING: If using a dimmer, follow wiring instructions enclosed with dimmer. Double check wiring.
  - FOR NON-DIMMING: If not using a dimming switch, with wire nuts, cap off white and black wires individually. Wire positive wire with positive wire, negative wire with negative wire. Double check wiring.
5. Tuck the wire connections neatly into the junction box.
6. Secure mounting bracket to outlet box with screws.
7. Place the fixture over the mounting bracket. Install the two screws on the sides of the fixture to secure it to the wall.
8. Turn power back on at fuse or circuit box.
