ASSEMBLY AND INSTALLATION INSTRUCTIONS

> **WARNING:TO AVOID RISK OF ELECTRICAL SHOCK,BE SURE TO SHUT OFF POWER PRIOR TO INSTALLING OR SERVICING THIS FIXTURE.**

NOTE:Before installing,consult local electrical codes for wiring and grounding requirements.

Installation Steps

1. Carefully unpack your new fixture and lay out all the parts on clean surface. Take care not to lose any small parts necessary for installation.
2. Connect the lamp bracket to the lamp body using nut and knob.
3. Determine the stem length required for installation,connect stems and thread wire through (Fig. 1).
4. Mark ceiling and install ceiling anchors. Attach mounting plate to junction box and attach screws to ceiling anchors for added support (Fig. 2).
5. Select desired CCT: 2700K,3000K, 4000K, 5000K,6500K on the CCT switch located in the canopy of fixture(Fig.4).
6. Make wire connections using wire nuts provided (Fig. 3):
   Red wire from the fixture to the red wire (V+) of the CCT switch
   Yellow wire from the fixture to the yellow wire of the CCT switch
   White wire from the fixture to the white wire of the CCT switch
   White wire from the DRIVER to the white wire from the supply circuit
   Black wire from the DRIVER to the black wire from the supply circuit
7. Attach ground wire to building ground wire using a wire nut or attach them to the mounting plate with a green ground screw.
   FOR DIMMING: If using a dimmer,follow wiring instructions enclosed with dimmer. Double check wiring.
8. Tuck the wire connections neatly into the junction box.
9. Place the fixture over the mounting bracket. Install the screws on the sides of the fixture to secure to the ceiling (Fig. 5)
10. Assemble the KD glass and tighten the screws to fix it.(Fig.6)
11. Turn power back on at fuse or circuit box.
