IMPORTANT:

When introducing a new type of waterer to your animals, completely remove the previous water source and replace it with the new waterer in the same location.

The position of the drinker depends on the height of your animal. *We do not provide an exact measurement as all animal sizes vary. Please use your best judgement when installing.*

PACKAGE CONTENTS [32OZ]

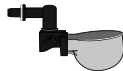

1x Drinker [32oz]

1x Sliding Lid

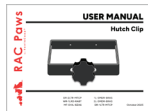

1x Easy-Plug (stored underneath lid)

1x Metal Auto-Fill Cup

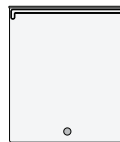

1x Hutch Clip [32oz]

1x Hutch Clip User Manual

PACKAGE CONTENTS [64OZ]

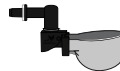

1x Drinker [64oz]

1x Sliding Lid

1x Easy-Plug (stored underneath lid)

1x Metal Auto-Fill Nozzle

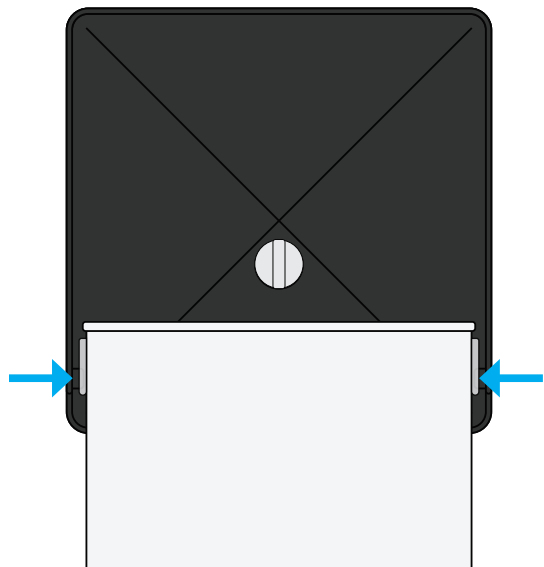

1x Hutch Clip [64oz]

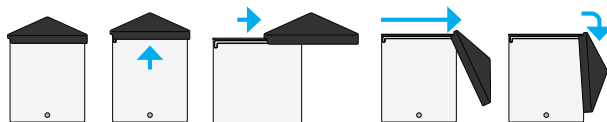

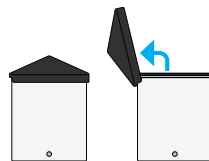

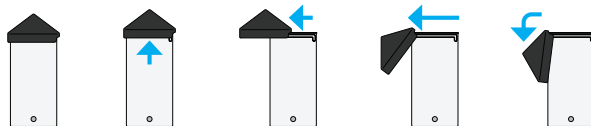

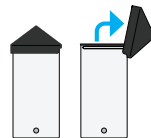

1x Hutch Clip User Manual

HOW TO INSTALL SLIDING LID

1. Place the notches that are located on the inside of the lid into the tracks on sides of the drinker.

HOW TO USE SLIDING LID

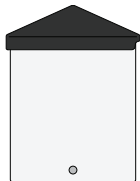

HOW TO ASSEMBLE DRINKER

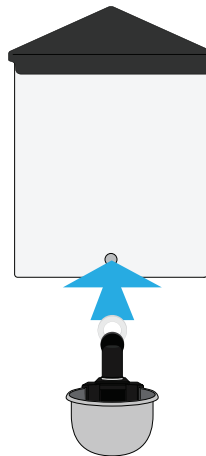

When introducing a new type of waterer to your animals, completely remove the previous water source and replace it with the new waterer in the same location.

**DO NOT FILL DRINKER WITH WATER UNTIL
DRINKER IS FIXED IN DESIRED LOCATION**

1. Attach lid (See page 6 for help).

2. Screw the metal auto-fill cup into the drinker turning clockwise until tight.

3. Mount. See Hutch Clip User Manual (included as a separate manual in this set).

MAINTENANCE

HOW TO CLEAN DRINKER

To prolong the life of your drinker, we recommend washing the entire drinker at least once a week.

The drinker container and lid are dishwasher-safe, top rack only.

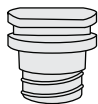

Disassemble drinker before cleaning.

HOW TO USE EASY-CLEAN PLUG

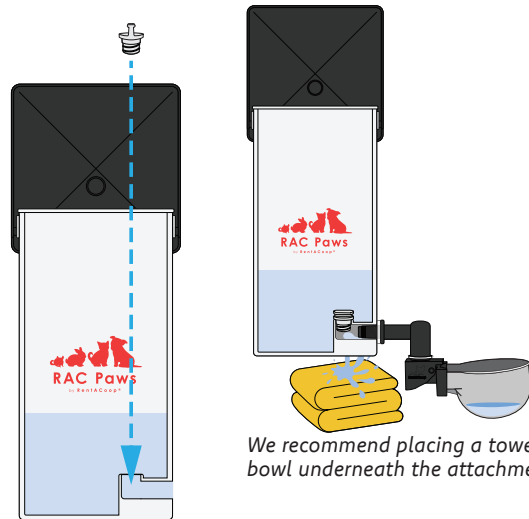

The small silicone plug is located underneath the drinker lid can be removed.

It is used to stop the flow of water so that you can easily unscrew, move, and clean your cup without creating a mess.

See Instructions on page 11 for reference.

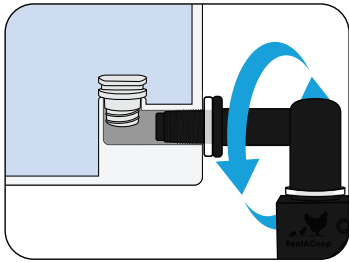

1. Remove the **Plug** from the lid and insert the plug into the hole at the bottom of the inside of the container.

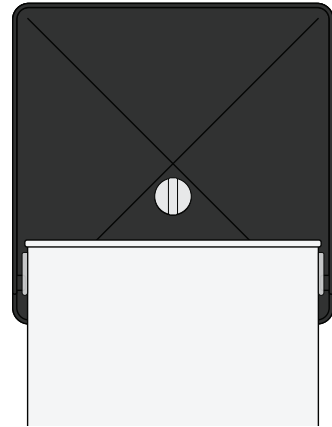

We recommend placing a towel or bowl underneath the attachment.

2. Unscrew the drinking attachment by its elbow.

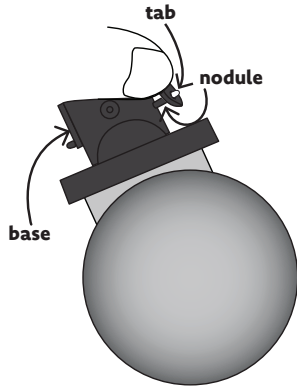

3. After you are done unscrewing, moving, and/or cleaning, re-install the drinking attachment back onto the drinker before removing the plug. Return the plug to the lid to store for safe-keeping.

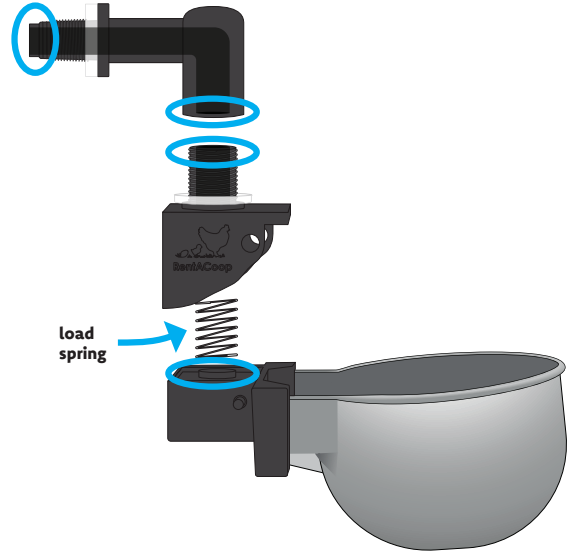

HOW TO CLEAN METAL AUTO-FILL CUP

1. Clean and wipe any dirt or debris from the cup.
2. Pry one side of the tabs on the base to release the small plastic nodule out of its tab. Be careful not to break the nodule off.

There is a load-spring so make sure to take the base off slowly. Once you release the first nodule, the second tab will come off easy.

3. Check that all **water spouts** are clean of debris. You can use a toothpick if clogged.
