OPTION 1	OPTION 2
	
This installation option allows you to access the egg tray from the outside of your coop. Extra tools are needed to create a hole for the nesting box to extend from the coop. The type of tool[s] that you will need will vary depending on the material and design of your coop. Please exercise caution and take preventive measures to ensure a safe installation for your own safety and the safety of your animals.	This installation option allows you to access the egg tray from the inside of your coop.
