2x long side walls

1x comfort pad

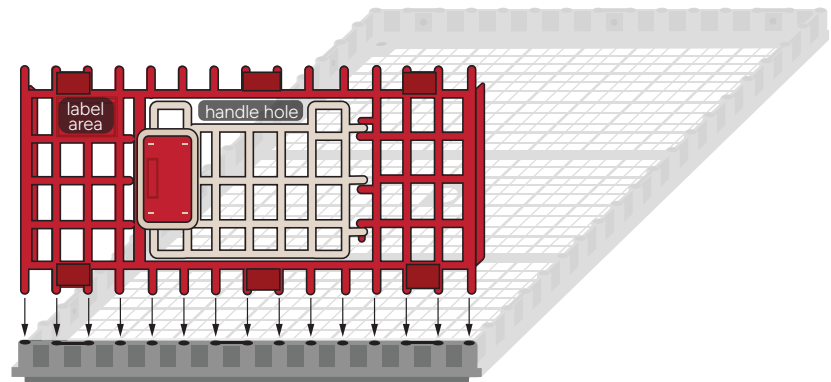

INSTRUCTIONS

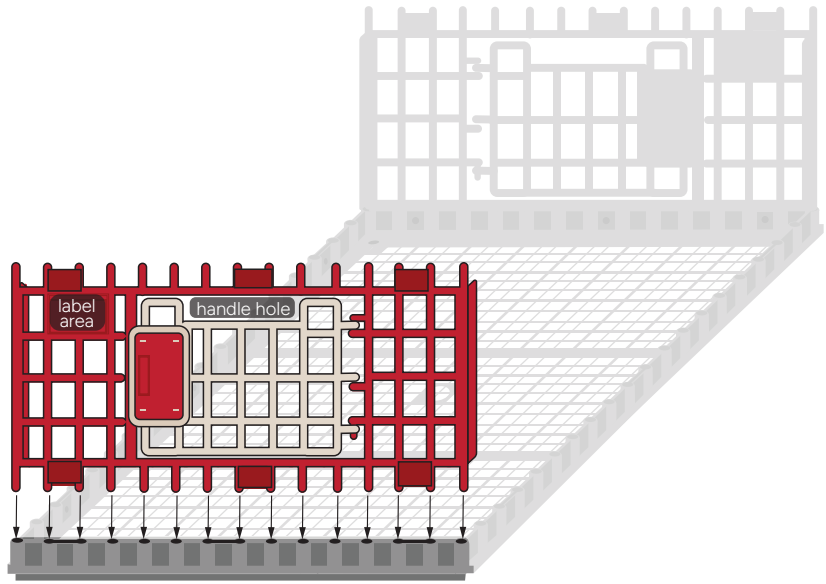

1. Place **base** on the floor with holes facing up.
- Line up the bottom pegs of the **short side wall** with the holes on the **base**.

Make sure the **label area** is *facing outwards* and positioned in the *TOP LEFT corner* of the **short side wall**. The **handle hole** will be at the top.

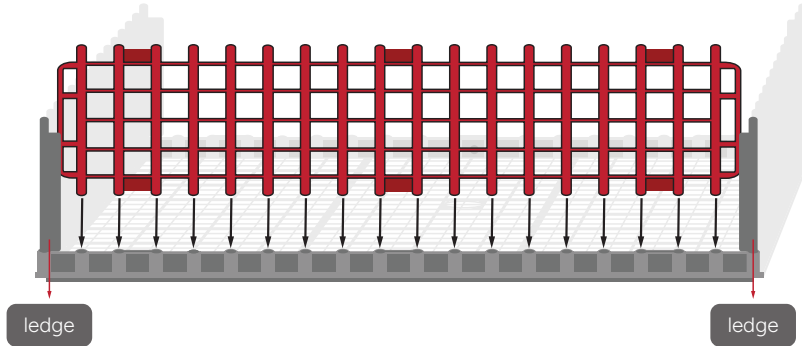

Insert the pegs into the holes and push down to secure.

2. Attach the remaining **short side wall** on the opposite side of the **base**. Make sure the **label area** is *facing outwards* and positioned in the *TOP LEFT corner* of the **short side wall**. The **handle hole** will be at the top.

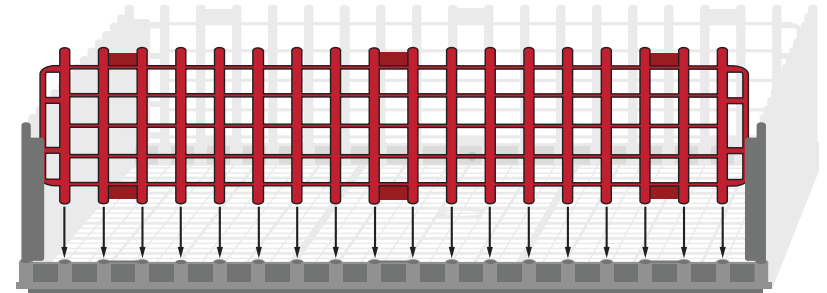

3. Line up the pegs of the **long side wall** over the holes in the **base**, making sure the edges of the long side wall are *on the inside* of the **ledges** of the two **short side walls**. Push down to secure.

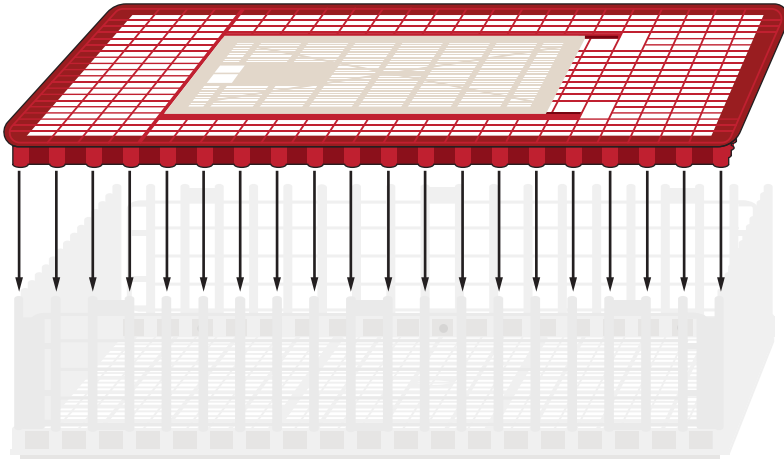

REMEMBER:
LEDGES OUTSIDE. LONG SIDE WALL INSIDE.

4. Attach the remaining **long side wall** to the base and remember to place the edges of the long side wall *on the inside* of the **ledges** of the two **short side walls**. Push down to secure.

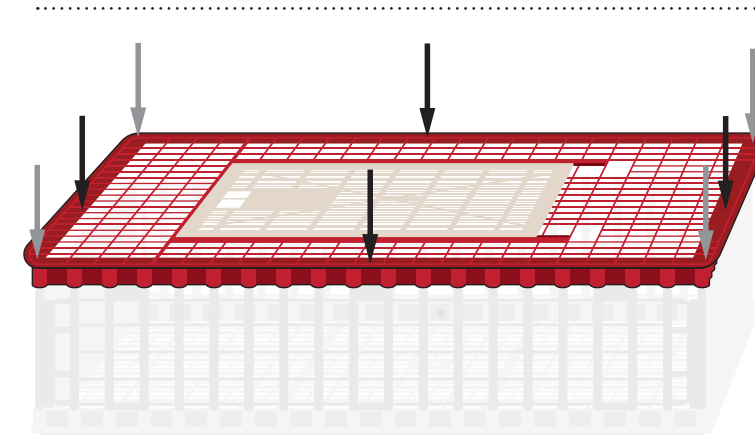

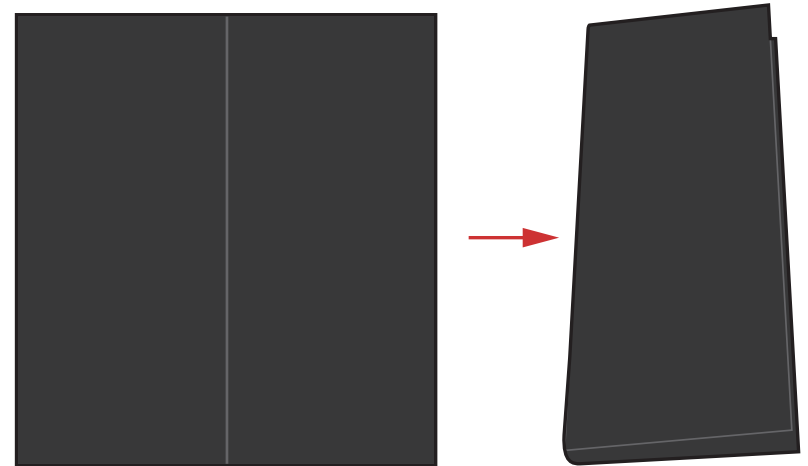

REMEMBER:
LEDGES OUTSIDE. LONG SIDE WALL INSIDE.

5. Position the holes of the **top** over the pegs of the walls and firmly push down to secure.

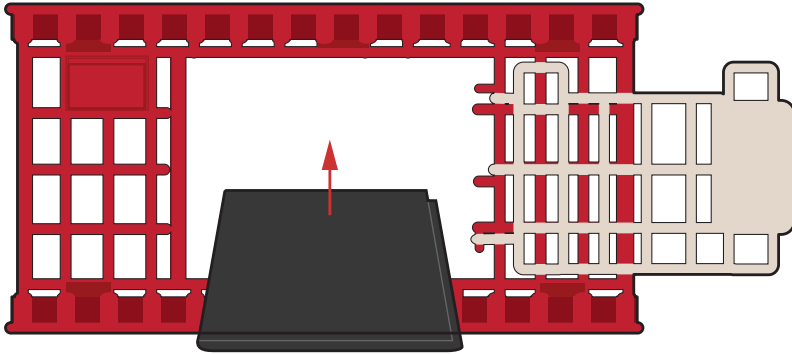

6. Fold the **comfort pad** in half.

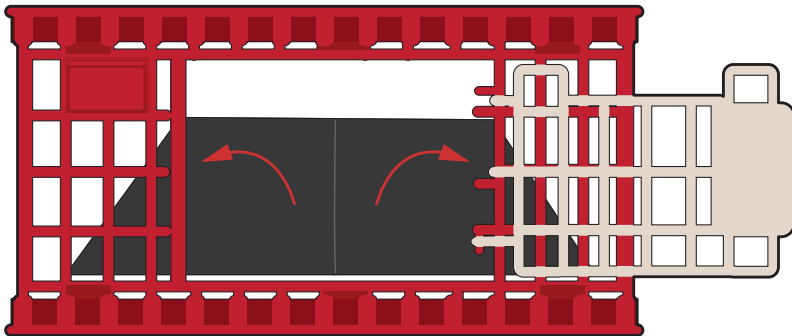

Push down on all four corners.

Push down on all edges.

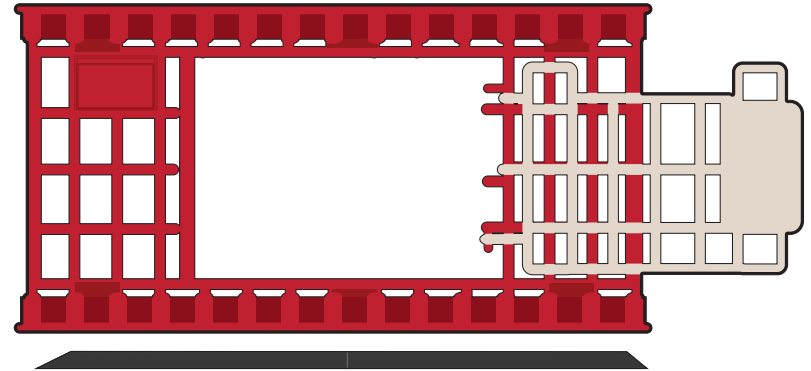

7. Slide the **comfort pad** into the carrier crate through either side door.

8. Unfold the **comfort pad** inside the carrier crate. *

.....

* Another option is to place the comfort pad directly underneath the carrier crate to use as a barrier when stacking crates for transportation.

The purpose of the pad is to prevent the floor or chickens below from getting dirty.

The poultry carrier crate is now ready for use!

NOTE: Like humans, animals are all different shapes and sizes. Please use your best judgement when transporting your poultry to avoid overcrowding.
