12V DC
Voltage (Power Source)

RELIABLE POWER MEETS ULTIMATE PORTABILITY.

The GPI 12V DC G8P is the premier refueling solution for recreational vehicles. Engineered from durable, corrosion-resistant die-cast aluminum, it delivers a lightweight yet rugged package designed to go wherever the trail takes you.

Delivering flow rates up to 8 GPM (30 L/min), connected to a DC power source can fuel virtually any petroleum-powered vehicle or equipment, anywhere.

The G8P is 20% lighter than similar portable pumps, and its comfort grip handle provides increased maneuverability when you need it most.

EASY MAINTENANCE

Self-priming, low maintenance rotary gear pump design for ease of use and long pump life.

SMART DESIGN

Comfort grip handle and steel stability base with rubber feet enhance functionality.

EASY INSTALLATION

Factory-installed power cord with in-line switch eliminates installation hassles.
