freestanding base
with automatic diesel
nozzle and hose.*

Build a remote
dispensing system with
**PROFESSIONAL
GRADE FLOW
AND EXCEPTIONAL
MEASUREMENT
ACCURACY**

Customize a GPRO remote dispensing system!

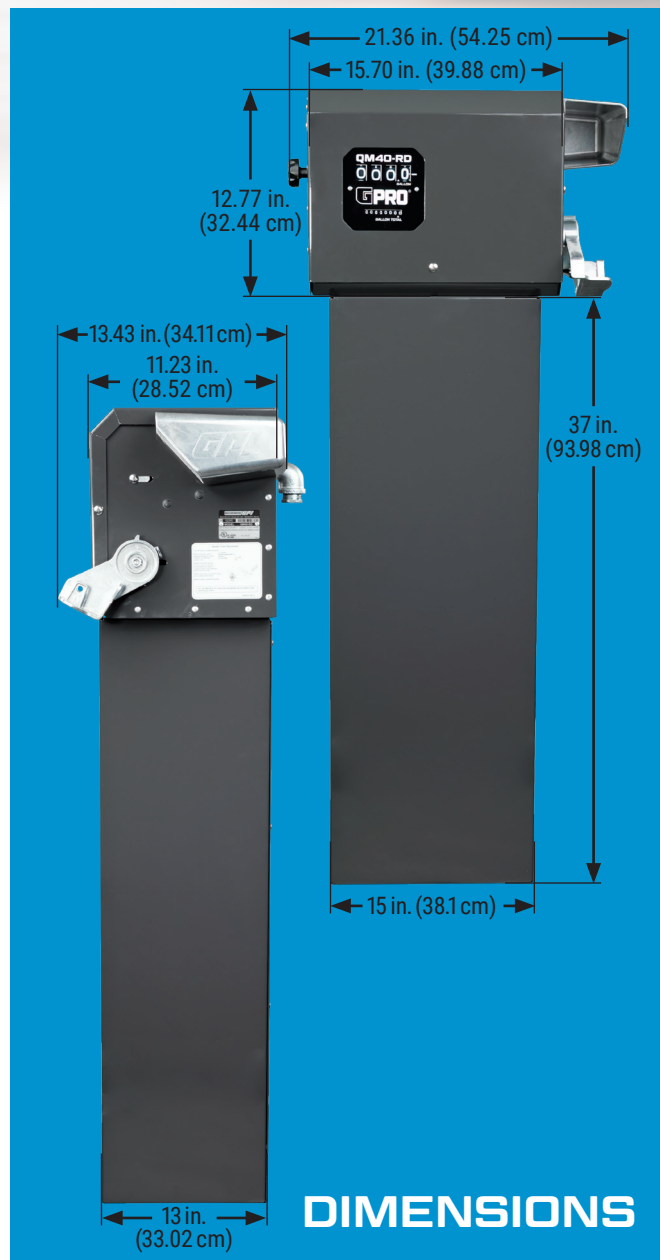

Start with the QM40-RD dispenser, available in gallons or litre measurement. Featuring a 8-150 L/min mechanical fuel flow meter, it measures within +/- 1/2% accuracy.

Next, select a GPRO remote dispenser pump and accessories. Recommended accessories include the vacuum breaker kit, pulser kit and filter kit. To help you complete the dispensing system there are two mounting options available. Select from a mounting shelf kit or freestanding base.

See details on the reverse side.

SYSTEM FEATURES

- +/- 1/2% across a flow range from 8 to 150 L/min
- 50 PSI (3.45 bar) max. working pressure
- Oval Gear technology at an affordable price
- Inlet / Outlet: 1 in. FNPT
- Magnetic Drive eliminates drive shaft leaks
- Lockable nozzle holder

BUILD YOUR SYSTEM IN 4 SIMPLE STEPS

1 Choose to measure in gallons or litres.

Flow Range	2 to 40 GPM
Model	Part No.
QM40-G8N-RD	143650-21

Flow Range	8 to 150 L/min
Model	Part No.
QM40-L8N-RD	143650-22

2 Choose the pump that best meets your needs.

Flow Rate	76 L/min (20 GPM)
Model	Part No.
V20-115RD-N08	171000-05

Flow Rate	132 L/min (35 GPM)
Model	Part No.
V35-115RD-N08	172000-05

3 Choose your accessories.

Description	Part No.
Vacuum Breaker Kit	504500-03

Description	Part No.
Filter Kit, 1 in.	133537-01

Description	Part No.
Pulser Kit, 115V (AC)	126517-05

4 Select a dispenser mounting solution.

Description	Part No.
Mounting Shelf Kit	143500-16

Description	Part No.
Base, 15 in. x 13 in. x 34 in.	133511-02

FLUIDS

Gasoline up to E15 | Diesel Fuel up to B20 | Kerosene
