

ARC FLASH TOOL TETHER

Dropped Object Prevention

The market's first ASTM F887 Arc Flash-resistant bungee-style tool tether securely anchors your tools while minimizing entanglement risk by shortening their length when stored. Made from a Kevlar®/ Nomex® blend, they provide superior heat and burn resistance than regular nylon or polyester options, allowing your tools to stay tethered, and workers below safe, even in the harshest conditions.

AWARD WINNING DESIGN

The Arc Flash Tool Tether has won the **2025 Occupational Health & Safety New Product of the Year Award** in the Dropped Object category.

**HEIGHT SAFETY.
SIMPLIFIED.**
