

## DEFENDER

### Full-Body Harness

Trust is earned on the job site and the Defender was created to deliver on that.

Developed through extensive collaboration with real users, the Defender harness encompasses the insights, challenges, and expectations of the workers who rely on fall protection every day.

With a tailored approach, we have created a multi-level harness range that delivers the performance, comfort, and innovation demands needed for every type of job.

Every component reflects direct user insights. The result is a harness line full of unique innovations and useful features that reduces fatigue, enhances mobility, and improves productivity - without compromising safety.

This is a harness engineered with purpose. This is a harness you can trust. This is a harness built around you.

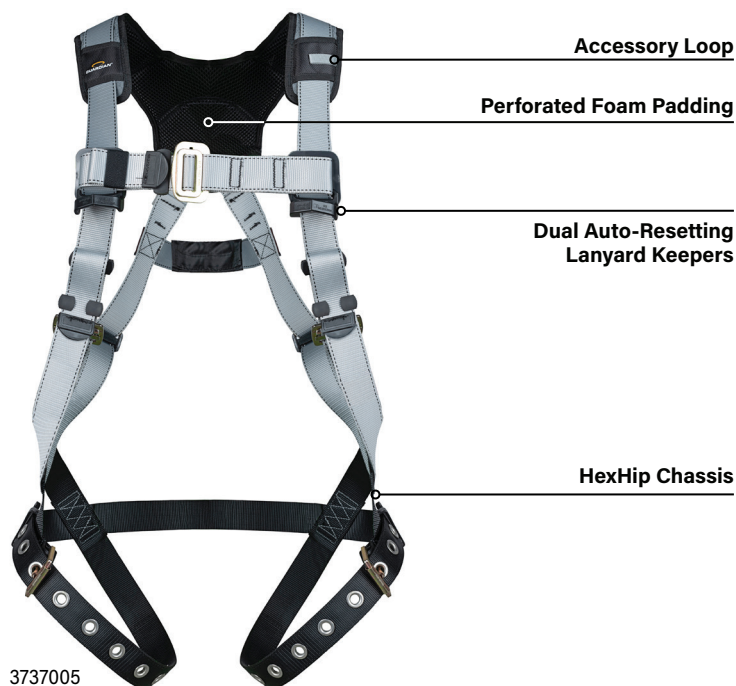

**HEIGHT SAFETY.  
SIMPLIFIED.**

## Full-Body Harness

### Key features & benefits

#### HexHip Chassis

Guardian's unique hip design improves comfort and mobility around the job site.

#### Accessory Loop

Integrated into shoulder pad for quick connection of common job site accessories.

#### Auto-Resetting Lanyard Keepers

Mitigates nuisance interference caused by dangling connector legs.

#### Dual Rear Lanyard Keepers

Two additional rear auto-resetting lanyard keepers provides connector stowage away from the workspace in front of the worker.

#### Integrated SRL Adapter Slot

Provides a convenient connection point for dual SRLs, keeping them high and tight for improved weight distribution.

#### Soft & Forming Shoulder Padding

Provides all-day comfort.

#### Perforated Foam Padding

Premium airflow design keeps you cool and comfortable all-day.

#### Wear-Indicating Webbing

Has a red inner core, providing a clear visual cue to simplify harness inspection.

#### Sturdy Fixed Waist Pad (Option)

Provides all-day support that mitigates sag when gear is added via fixed design. The waist pad also includes a Tool Tether Anchor Point on each hip.

### Specifications
