

DEFENDER ULTRA

Full-Body Harness

Trust is earned on the job site and the Defender was created to deliver on that.

Developed through extensive collaboration with real users, the Defender Ultra harness encompasses the insights, challenges, and expectations of the workers who rely on fall protection every day.

With a tailored approach, we have created a multi-level harness range that delivers the performance, comfort, and innovation demands needed for every type of job.

Every component reflects direct user insights. The result is a harness line full of unique innovations and useful features that reduces fatigue, enhances mobility, and improves productivity - without compromising safety.

This is a harness engineered with purpose. This is a harness you can trust. This is a harness built around you.

**HEIGHT SAFETY.
SIMPLIFIED.**

Declaration of conformity

This product has been tested in an ISO 17025 accredited laboratory in accordance with all requirements specified by **ANSI Z359.7-2019**.

This product is compliant with the following safety regulations and consensus standard:
ANSI Z359.11-2021 | OSHA 1910.140 & 1926.502

Key features & benefits

HexHip Chassis

Guardian's unique hip design improves comfort and mobility around the job site.

Accessory Loop

Integrated into shoulder pad for quick connection of common job site accessories.

Auto-Resetting Lanyard Keepers

Mitigates nuisance interference caused by dangling connector legs.

Dual Rear Lanyard Keepers

Two additional rear auto-resetting lanyard keepers provides connector stowage away from the workspace in front of the worker.

Integrated SRL Adapter Slot

Provides a convenient connection point for dual SRLs, keeping them high and tight for improved weight distribution.

Wear-Indicating Webbing

Has a red inner core, providing a clear visual cue to simplify harness inspection.

DiaLock Torso Adjusters

Offer a quick and precise adjustment method.

Digital Inspection & Asset Management

Powered by Twiceme Technology®

with a built-in NFC chip for streamlined digital inspections and effortless asset management via the Twiceme application.

CoolFit Perforated Foam Padding

Premium airflow design keeps you cool and comfortable while delivering a soft, contoured fit for all-day performance.

CoolFit Fixed Waist Pad (Option)

Provides all-day support that mitigates sag when gear is added via fixed design. Comes with two integrated Tool Tether Anchor Points.

EDC-Coated Hardware

Additional protective hardware coating that significantly increases durability and corrosion resistance.

Specifications

User weight range (including all clothing, tools, and equipment) | OSHA | 100-420 lb | ANSI | 130-310 lb

Maximum weight range | 100-420 lb (per user)

Materials | Polyester, steel, nylon, polyurethane
