Independent Dynamic Test	1/17/2025	Internal Procedure	Pass

This test report covers these additional products:

Please contact quality@guardianfall.com for signed report.

Internal Procedure

- Attach one end of the test cable to the connection point on the tool attachment and the other end to the fixed anchor point. The test weight shall be positioned in a way to expose the weakest orientation of the tool attachment.
- Perform a drop with a test weight equal to the supplier's published capacity with a free fall distance of the specified test tether length allowed by the supplier. The test weight shall be orientated in a way that allows the weight to experience a straight fall.

Internal Procedure

Samples	Sample # 01	Sample # 02	Sample # 03
Freefall distance (in.)	96	96	96
Test Weight (lb)	1	1	1
Test weight arrested?	Yes	Yes	Yes
Result/Assessment	Pass	Pass	Pass
