INTERNATIONAL ENVIRO GUARD

FirmGrip Shoe Covers

Particulate & light liquid splash protection

FirmGrip Non-Skid Demo Video

FirmGrip Shoe Covers

FirmGrip non-skid shoe covers provide exceptional traction, especially when compared to traditional “non-skid” polypropylene shoe covers.

Designed with a multi-layer fabric and a textured finish that gives the wearer solid traction. FirmGrip will protect the wearer from particulates and light liquid splash. A firm elastic closure at the top secures the shoe cover comfortably in place.
