INTERNATIONAL ENVIRO GUARD

GammaGuard® CE

Sterile garments for liquids & particulates

GammaGuard® CE Features Video

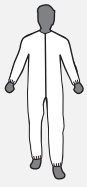

GammaGuard® CE Brand Page

GammaGuard® CE

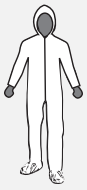

Sterile garments designed with comfortable fabric and a superior liquid and particulate barrier.

All GammaGuard CE® garments are individually packaged and sterilized to a 10^{-6} sterility assurance level (SAL).This helps prevent workplace contamination and cross contamination of products or materials. Low-linting fabric helps reduce the release of unwanted particulates, while tunnelized elastic also contains particle shed.

Available Garments

Coverall with Tunnelized Elastic Wrists & Ankles
#CE11013CIS
Sizes: Small - 4XL
25 per case

Coverall with Attached Hood & Boots
#CE11019CIS
Sizes: Small - 4XL
25 per case

Frock, No Pockets, Tunnelized Wrists
#CE11026CIS
Small - 4XL
50 per case

Full Face Hood with Tunnelized Elastic Face
#CE11063CIS
Size: Universal
100 per case

Sleeves, 21.5” Length Tunnelized Elastic on Both Ends
#CE11065CIS
Size: Universal
100 pairs per case

Non-Skid Shoe Covers

#CE11101CIS
Size: Large
Non-Skid Soles
200 pairs per case

#CE11102CIS
Size: XL
Non-Skid Soles

Non-Skid Boot Covers

#CE11104CIS
Size: Large
Non-Skid Soles
100 pairs per case

#CE11106CIS
Size: XL
Non-Skid Soles

INTERNATIONAL ENVIRO GUARD

GammaGuard® CE

Sterile garments for liquids & particulates

Benefits

In a cleanroom environment, maintaining sterility is critical for keeping products, processes, and materials contamination-free. GammaGuard® CE cleanroom apparel is designed with varying levels of protection to help keep you safe based on your cleanroom standards.

All garments and cleanroom suits are clean processed using the Sterile-Don™ packaging process, meaning all loose particles have been removed from the clothing before packaging.

Physical Testing

TEST	METHOD	RESULT
Weight, oz/y²	ASTM D3776	1.8
Ball Burst Strength (lbs)	ASTM D3787	21
Tensile Strength (lbs) Machine Direction	ASTM D5034	15
Tensile Strength (lbs) Cross Direction	ASTM D5034	24.5
Tensile Strength (lbs) Trapezoidal - Machine Direction	ASTM D1117	2.4
Tensile Strength (lbs) Trapezoidal - Cross Direction	ASTM D1117	5.6
Air Permeability (cfm)	ASTM D737	<0.55
Helmke Drum Particle Test	IEST-RP-CC003	Category 1

Bound Seams

Tunnelized Elastic

Sterility Assurance

Raise your Standards

GammaGuard® CE is made in an ISO-13485 certified facility. All garments are sterilized to a 10^{-6} SAL, which is the highest level possible.

Trust the Process

Sterile-Don™ packaging protects against contamination during donning.

Decrease Particle Shed

Tunnelized elastic is encapsulated to capture particle shed & eliminate raw edges that can generate and shed particulates.

Tear-Resistant Fabric

Our proprietary fabric is tear-resistant and keeps users cooler than competitive fabrics.

Quality Assurance

A certificate of sterility is included in each case.

Bound Seams are Strong Seams

A reinforced outer binding is tightly sewn over each seam to strengthen it & eliminate raw edges that can generate particulates.
