

EAGLE CLAW®

2027 NEW PRODUCTS

V-BARB FINESSE

Built for finesse soft plastics that need a natural presentation, the Lazer Sharp V-Barb Finesse Hook uses a lightwire build and slim keeper to hold baits without adding bulk on Texas-rigged drop shots, threaded drop shots, light Texas rigs, and split shot rigs. The Pro-V Bend keeps fish pinned through the fight.

LPA18VP

SOUTHERN SPROAT WORM

Lazer Sharp Southern Sproat Worm Hook Value Packs give anglers more of a proven soft plastic hook for a wide range of presentations. The straight shank design helps drive the hook home, dual bait slices help hold plastics in place, and the tighter sproat-style gap is preferred by many anglers.

LPA95XBL

PRO-V FINESSE

Now available in the Lazer Sharp lineup, the LPA137 Pro-V Finesse Hook brings a proven finesse design to wacky, Neko, and other soft plastic presentations. Its shank length suits both wacky and Neko rigs, while the Pro-V Bend keeps fish buried deep in the V for more control during the fight.

LPA137

Now available in the Lazer Sharp lineup, the LPA137W Pro-V Weedless Finesse Hook brings a proven finesse design to wacky, Neko, and other soft plastic presentations around cover. A weed guard helps reduce snags around grass, brush, and wood, while the Pro-V Bend keeps fish buried deep in the V for more control during the fight.

LPA137W

Spinnerbaits and buzzbaits get plenty of strikes, but too many fish miss the main hook. The Lazer Sharp Pro-V Trailer Hook adds a second hook point where fish often swipe short, and its Pro-V Bend brings serious holding power once fish connect.

L7258VP

Available in value packs, Lazer Sharp Short Shank Extra Wide Gap Treble Hooks give anglers more hooks for upgrading hard baits. The short shank helps anglers upsize their trebles while reducing hook-to-hook tangles. The EWG design helps keep fish pinned. The Needle Point delivers fast penetration.

LPA949P

Built for replacing treble hooks on spoons, spinners, and other lures, the Lazer Sharp Pro-V Siwash Hook features an open eye for easy attachment. The Pro-V Bend brings serious holding power to lure presentations where every strike needs to stay connected.

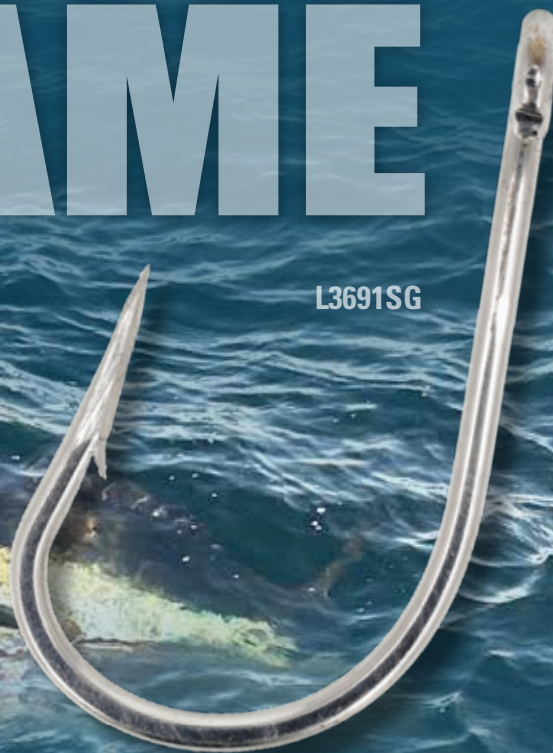

PRO-V SIWASH

L210VP

BIG GAME TUNA

L3691SG

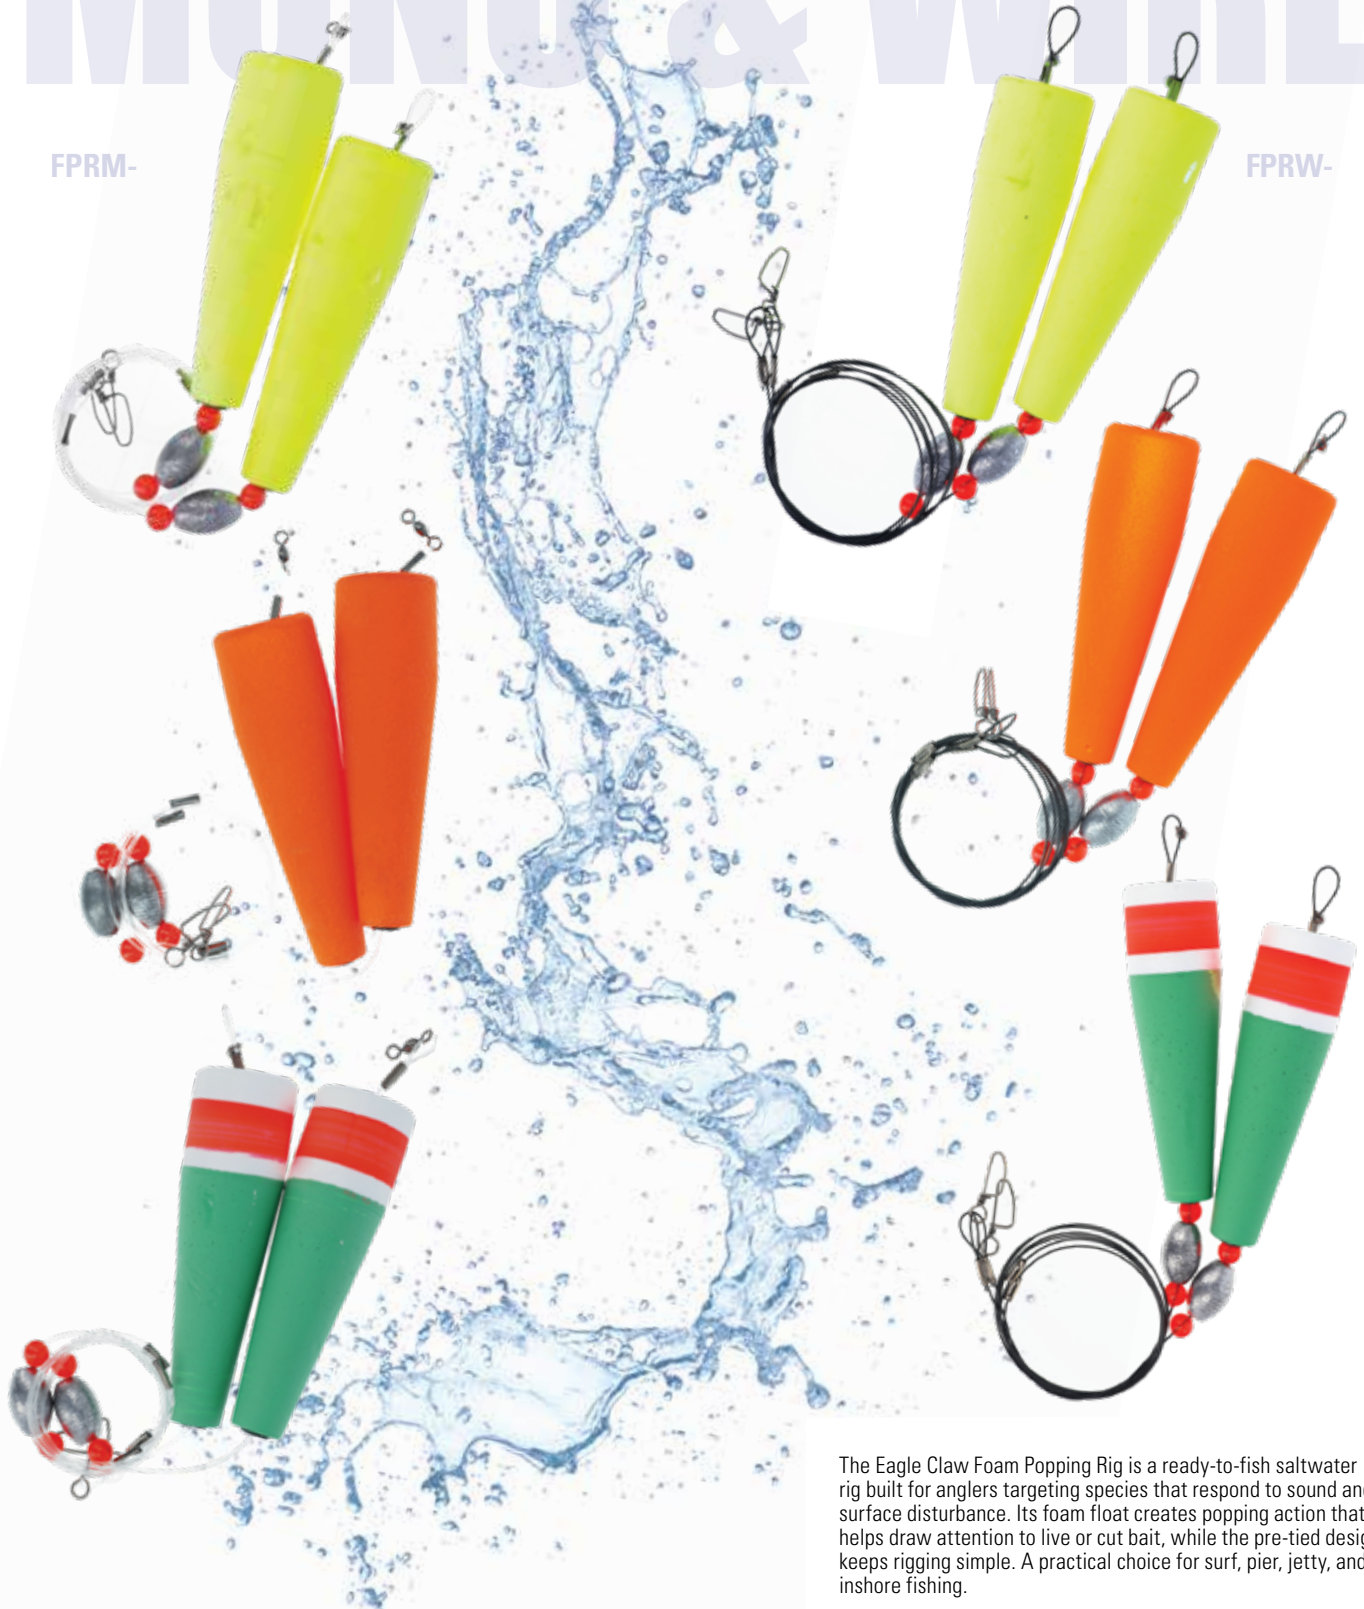

Built for big saltwater fish, the Lazer Sharp Big Game Tuna Hook uses a heavy wire build and J-hook shape for the strength needed in demanding tuna applications. Seaguard plating helps resist corrosion in harsh saltwater conditions, while the smart value gives anglers a more affordable option than the competition without giving up dependable hook performance.

FOAM POPPING RIG MONO & WIRE

FPRM-

FPRW-

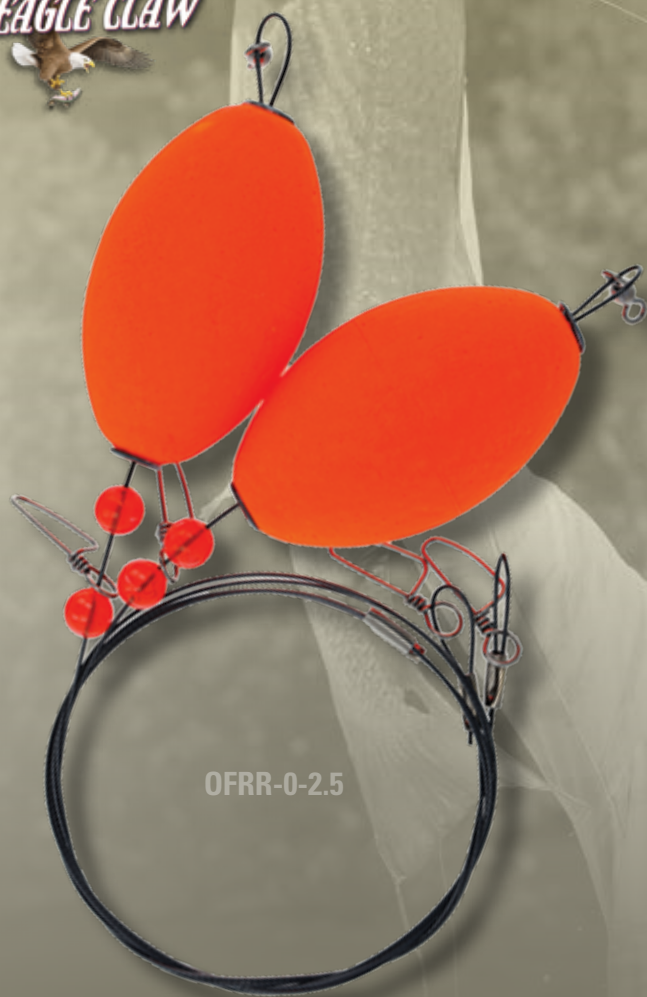

The Eagle Claw Foam Popping Rig is a ready-to-fish saltwater rig built for anglers targeting species that respond to sound and surface disturbance. Its foam float creates popping action that helps draw attention to live or cut bait, while the pre-tied design keeps rigging simple. A practical choice for surf, pier, jetty, and inshore fishing.

RATTLE RIG

OFRR-0-2.5

Eagle Claw Oval Float Rattle Rigs give anglers a ready-to-fish setup for adding float, sound, and visibility to their presentation. Built with a 2.5-inch orange oval float, durable Nylawire, and a coast lock snap for quick weight changes, each pack includes two rigs for easy setup from the bank, boat, or pier.

DOUBLE DROP RIG

06050-

This double drop rig gives anglers a dependable setup for presenting two baits near bottom. The two-hook layout helps cover more water and increase bites, while the straightforward design makes it easy to rig, cast, and fish. Simple, proven, and practical, it is a reliable choice for saltwater and heavy freshwater applications.

Eagle Claw Perch Fly Rigs give perch anglers a ready-to-fish double drop rig that works well tipped with live bait. Built with real fish skin wings, low-vis 8 lb fluorocarbon leader, and Eagle Claw Aberdeen hooks, these 27-inch rigs add color and movement while keeping bait in the strike zone.

READY RIG WITH HOOK

Lazer Sharp Ready Rigs with Hook give anglers a simple, pre-rigged setup for bait fishing in freshwater or saltwater. Available with O'Shaughnessy, inline circle, and inline baitholder circle hooks, each rig pairs a weighted leader with durable line or coated steel options to help anglers spend less time rigging and more time fishing.

STEALTH RIG

Lazer Sharp Stealth Rigs give anglers a simple fluorocarbon leader setup for bait fishing when a less visible presentation matters. Available with lancet offset circle, octopus, and inline baitholder circle hooks, each 18-inch rig includes a swivel and comes three per pack to help anglers rig bait quickly and fish with confidence.

BALSA WOOD SPRING FLOAT ASSORTMENT

Eagle Claw floats give anglers simple options for rigging bait and watching for bites. The Balsa Spring Float Assortment includes five real balsa wood floats with chartreuse and red tops for visibility.

LSBFASST

2-1/2" OVAL SLIP FLOAT (BULK)

FFOS-

Oval Foam Slip Floats come in bulk for easy grab-and-go shopping, with durable high-density foam, bright colors, and a plated insert for smooth line flow.
