V-BARB FINESSE

Built for finesse soft plastics that need a natural presentation, the Lazer Sharp V-Barb Finesse Hook uses a lightwire build and slim keeper to hold baits without adding bulk on Texas-rigged drop shots, threaded drop shots, light Texas rigs, and split shot rigs. The Pro-V Bend keeps fish pinned through the fight.

See page 51 for more details.

SOUTHERN SPROAT WORM

Lazer Sharp Southern Sproat Worm Hook Value Packs give anglers more of a proven soft plastic hook for a wide range of presentations. The straight shank design helps drive the hook home, dual bait slices help hold plastics in place, and the tighter sproat-style gap is preferred by many anglers.

See page 54 for more details.

PRO-V FINESSE

Now available in the Lazer Sharp lineup, the LPA137 Pro-V Finesse Hook brings a proven finesse design to wacky, Neko, and other soft plastic presentations. Its shank length suits both wacky and Neko rigs, while the Pro-V Bend keeps fish buried deep in the V for more control during the fight.

See page 55 for more details.

Now available in the Lazer Sharp lineup, the LPA137W Pro-V Weedless Finesse Hook brings a proven finesse design to wacky, Neko, and other soft plastic presentations around cover. A weed guard helps reduce snags around grass, brush, and wood, while the Pro-V Bend keeps fish buried deep in the V for more control during the fight.

See page 55 for more details.

Spinnerbaits and buzzbaits get plenty of strikes, but too many fish miss the main hook. The Lazer Sharp Pro-V Trailer Hook adds a second hook point where fish often swipe short, and its Pro-V Bend brings serious holding power once fish connect.

See page 66 for more details.

Available in value packs, Lazer Sharp Short Shank Extra Wide Gap Treble Hooks give anglers more hooks for upgrading hard baits. The short shank helps anglers upsize their trebles while reducing hook-to-hook tangles. The EWG design helps keep fish pinned. The Needle Point delivers fast penetration.

See page 68 for more details.

NEW PRODUCTS

Built for replacing treble hooks on spoons, spinners, and other lures, the Lazer Sharp Pro-V Siwash Hook features an open eye for easy attachment. The Pro-V Bend brings serious holding power to lure presentations where every strike needs to stay connected.

See page 57 for more details.

PRO-V SIWASH

BIG GAME TUNA

Built for big saltwater fish, the Lazer Sharp Big Game Tuna Hook uses a heavy wire build and J-hook shape for the strength needed in demanding tuna applications. Seaguard plating helps resist corrosion in harsh saltwater conditions, while the smart value gives anglers a more affordable option than the competition without giving up dependable hook performance.

See page 64 for more details.

FOAM POPPING RIG MONO & WIRE

NEW PRODUCTS

The Eagle Claw Foam Popping Rig is a ready-to-fish saltwater rig built for anglers targeting species that respond to sound and surface disturbance. Its foam float creates popping action that helps draw attention to live or cut bait, while the pre-tied design keeps rigging simple. A practical choice for surf, pier, jetty, and inshore fishing.

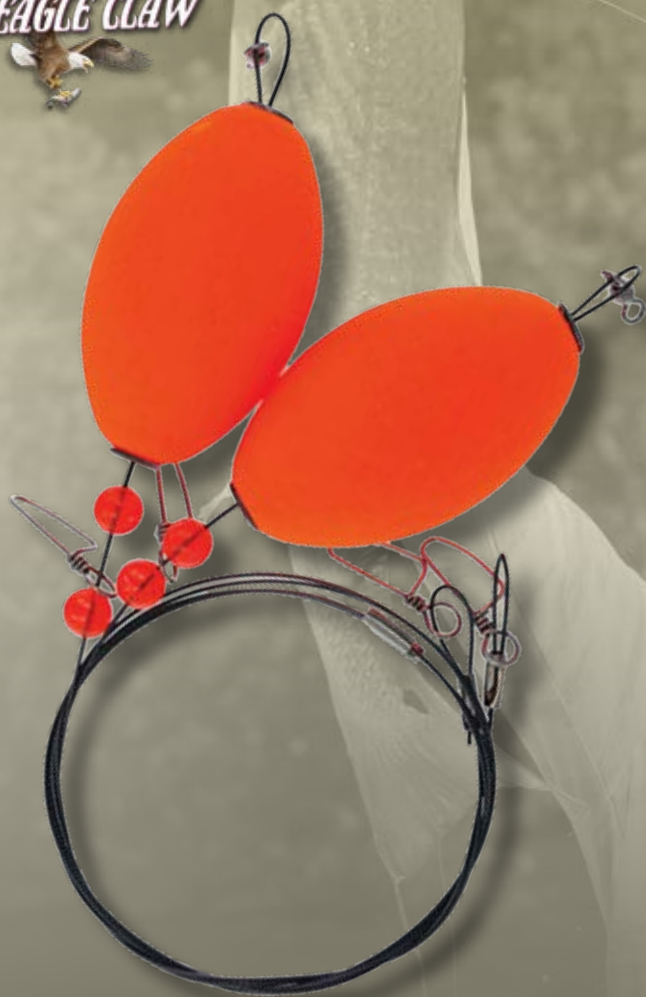

See page 101 for more details.

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

EAGLECLAW.COM

RATTLE RIG

Eagle Claw Oval Float Rattle Rigs give anglers a ready-to-fish setup for adding float, sound, and visibility to their presentation. Built with a 2.5-inch orange oval float, durable Nylawire, and a coast lock snap for quick weight changes, each pack includes two rigs for easy setup from the bank, boat, or pier.

See page 102 for more details.

DOUBLE DROP RIG

This double drop rig gives anglers a dependable setup for presenting two baits near bottom. The two-hook layout helps cover more water and increase bites, while the straightforward design makes it easy to rig, cast, and fish. Simple, proven, and practical, it is a reliable choice for saltwater and heavy freshwater applications.

See page 100 for more details.

PERCH FLY RIGS

Eagle Claw Perch Fly Rigs give perch anglers a ready-to-fish double drop rig that works well tipped with live bait. Built with real fish skin wings, low-vis 8 lb fluorocarbon leader, and Eagle Claw Aberdeen hooks, these 27-inch rigs add color and movement while keeping bait in the strike zone.

See page 99 for more details.

NEW

An American Made Workhorse

The Jet Sled is equal parts pack mule, utility trailer, and farmhand. Okay, it's a sled, but the word sled doesn't quite illustrate the versatility, dependability, ruggedness, and absolute utility of the Jet Sled. Pairing the Jet Sled with all new covers, bags, and wheel cart adds more versatility and usefulness to an already proven American-Made workhorse.

SLEDs

Jet Sleds

Jet sleds are the standard in outdoor sleds. Built in the USA, all Jet Sleds are made of High density polyethylene (HDPE) and are designed to provide years of use. Available in Jet Sled, Jet Sled HD, and Camo patterns. The Jet Sled Heavy Duty series is thicker and stronger than the standard jet sled with higher walls to tackle the toughest terrain and conditions. And the camo patterns Sleds accommodate a variety of outdoor uses in any season. Variety of sizes.

COVERS

Jet Sled Travel Covers

Dragging your Jet Sled shouldn't be a hassle. Keep all your gear safe and dry with a Shappell travel cover with sizes to fit any application. 600D polyester fabric with elastic hem keeps rain and snow out of gear. Variety of sizes.

HUNTING

FISHING

CONSTRUCTION

GARDENING

FIREWOOD

JET SLEDS

Jet Sled Hauler Bag

The decoy hauler bag securely attaches in seconds and provides enough extra storage for up to 3 dozen full body goose decoys or 6 dozen duck decoys.

HAULER BAG

Jet Sled Wheel Cart

The Jet Cart transforms a standard jet sled into a two wheeled utility cart in seconds. The 16" wheels and steel frame allow it to handle rough terrain and heavy loads up to 250lbs. The adjustable frame fits most size Jet Sleds including: JSR, JS1, JSX, KDR, KD1, KDX.

⚠️ PROP65

⚠️ WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

CAPTAIN JOE BAUER

SMALLMOUTH HEAVEN
GUIDE SERVICE

Whenever anglers fish with Joe Bauer of Smallmouth Heaven Guide Service, they're chasing smallmouth of mythical proportions. Fives, sixes, and seven-pounders sitting at the top of the smallmouth mountain.

Joe knows those northern waters like the back of his hand. That kind of time on the water teaches a simple truth. The next cast could be the one that puts someone in the 7-pound club. When that fish eats, Joe wants hooks he can trust.

That's why he relies on Lazer Sharp Treble Hooks on his hard baits. The Lazer Sharp Needlepoint is built for fast penetration, while the EWG design and barb size help keep big smallmouth pinned through freight-train runs, jumps, and the headshakes that have broken too many hearts to count.

Lazer Sharp value makes the decision easy. Upgrading hard baits gives anglers hook performance they can trust with a fish of a lifetime.

Joe's livelihood isn't built on fish stories. It's built on fish pictures.

Fish Harder. Spend Smarter.

***WHEN YOU HOOK THEM
YOU OWN THEM!***

TROKAR POINT

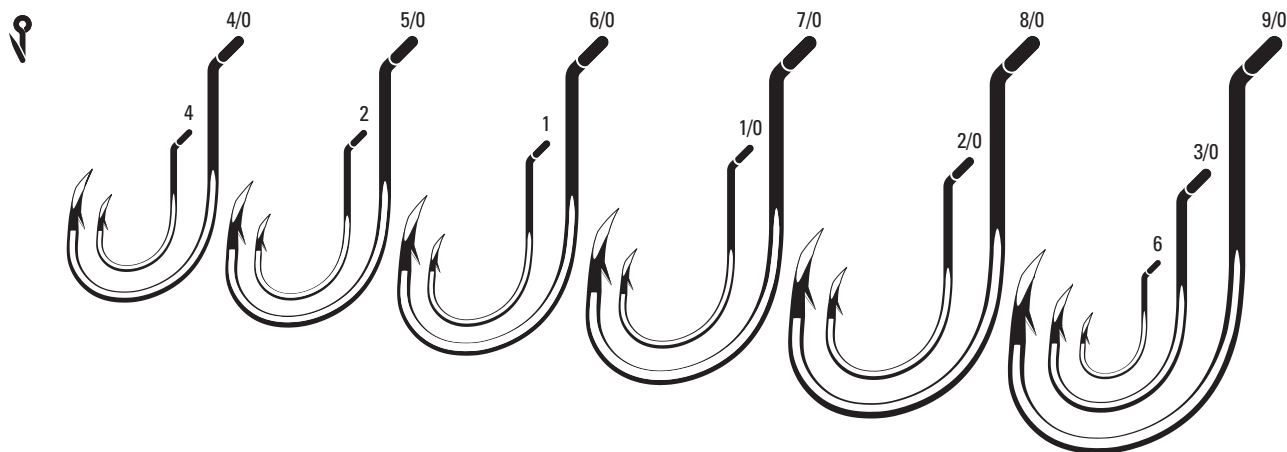

Inspired by surgical instruments, Trokar's unique triple sided hook point ensures faster, deeper hook penetration that requires half the pressure of the competition for hookset. Manufactured using cold forged, high-carbon, American-Made steel, Trokar hooks are elite grade—offering better durability and stronger holds.

Lazer Sharp's Striped Bass and Shark Inline Circle Rigs feature 100% regulation compliant, American Made inline circle hooks. As catch and release becomes more popular among anglers today, gentle fish handling is becoming increasingly important.

Studies have shown as high as 48% mortality rate on released fish. Inline circle hooks have been proven to reduce fatal injuries decreasing the mortality rate by hooking the fish in the corner of the mouth in the majority of hook sets.

The Lazer Sharp Striped Bass Inline Circle Rigs are tied with 100% regulation approved American made fish hooks, offering the angler peace of mind in efforts to conserve their fisheries. A variety of rigs are available.

SNAP WEIGHTS

Stop losing fish due to fumbling around trying to remove weight clips. The Snap Weight Line Clips feature a revolutionary new design which provides superior locking strength on any line type but can still be removed quickly, with one hand. Unlike other clips that break after a few trips, these are rugged enough to handle multiple seasons of use.

SNAP WEIGHTS QUICK RELEASE LINE CLIP

Lazer Sharp Tungsten Jigs let anglers feel more and drop faster. The compact tungsten head delivers the weight you need in a smaller profile, while the twin talon keeper locks soft plastics in place for more fish per bait. Finished with a Pro-V needlepoint hook that sticks on contact and won't let go.

EAGLE EYE UNDERSPIN JIG

PROV BEND

The Eagle Eye Underspin was built to maximize bites and turn them into fish in the net. The blade configuration ensures the blade spins freely, powered by a ball bearing swivel that keeps it moving at any speed. Optimized blade-to-hook spacing eliminates contact with your bait, so it runs clean every cast. The twin talon keeper locks soft plastics in place, giving you more fish per bait and confidence knowing your bait is locked in perfectly. Finished with a Lazer Sharp Pro-V hook that sticks on contact and locks fish in.

EWG FINESSE JIG

⚠️ PROP 65

The Lazer Sharp EWG Weedless Finesse jig allows Bass anglers to fish a "Ned-style" bait in weedy areas. The 100% weedless presentation and mushroom style head gives baits a stand-up presentation that will trigger bites.

FOLDING NETS

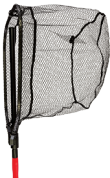

Eagle Claw's foldable landing nets are built using an aluminum alloy with stainless screws for an outstanding performance, durability, and lightweight design. The strong aluminum handle can resist bending, cracking, and supports up to 44 lbs in weight. Each net features a push-down switch to easily fold in the nets frame for easy storage and transportation. The Rubber coated nylon netting provides a fish friendly, and tangle-free performance. Comes in small, medium, and large sizes.

Meal Ticket Crappie Rods are built for anglers who want high-end performance without the high-end price. The advanced composite blank delivers the sensitivity to feel the thump and the give to keep slabs pinned. With multiple lengths, powers, and actions, there's a Meal Ticket ready for every crappie bite.

RODS • REELS • COMBOS

No Starfire X rod is complete until it's paired with the Starfire X Trolling Reels. You can now choose from 4 different level wind trolling reel models that all feature rugged construction, brass gears, 2+1 ball bearings, ceramic line guide, and an aluminium handle with over-sized rubber knob. Built to last and to live up to the Starfire legacy. Available in 15 and 30 sizes with or without a line counter.

StarfireTM X Trolling

Starfire X Trolling rods are built for anglers who spend their days pulling gear, watching rod tips, and covering water. The series includes trolling-specific models for crankbaits, bottom bouncers, snap weights, and other modern trolling presentations. Durable composite construction delivers the backbone for hard-pulling fish and trolling gear, while forgiving tip sections help anglers track lure action and detect bites. Starfire X is built to work the way trolling anglers fish.

BOTTOM BOUNCER

The 8'6" Starfire X bottom bouncer rod features a moderate fast action and soft tip which is ideal for telegraphing bites without applying too much pressure and alerting fish. The composite construction provides excellent sensitivity for using 1-4 ounce bottom bouncers with spinner rigs, slow revolve rigs, and blade rigs. The hybrid cork/EVA foam grip works equally well when holding the rod or using a rod holder.

PLANER BOARD RODS

The Starfire X in-line planer board rods are available in 7'6" and 8'6" lengths and feature a forgiving tip section, yet enough backbone to handle the weight of boards and the resistance of deep diving crankbaits, snap weights, and other trolling gear. The composite construction offers the perfect balance of sensitivity for detecting bites and durability for pulling heavy gear.

DOWNRIGGER RODS

Starfire X downrigger rods are available in 7'6", 8', and 8'6" lengths and great for a variety of trolling applications. They feature a forgiving moderate action with enough backbone to tame stubborn fish. The rugged glass construction is tough enough to handle the harshest conditions. The X-Wrap EVA grips and no-spin foregrip provide great ergonomics and comfort for fighting big fish.

DIVER / LEAD CORE / WIRE

Starfire X diver rods are available in 9' and 10' lengths and feature a moderate slow action which is ideal for fishing standard or magnum divers and lead core. They also include heavy-duty stainless steel guides to handle abrasive copper wire. The 9' model features an industry first telescopic design, which makes storage in smaller rod lockers possible.

TRANSOM TROLLER

The 6' Starfire X transom rod is designed to be run directly off the back of the boat as a bonus rod. The shorter length makes it nimble enough to not interfere with other rods on the sides of the boat. The moderate action is perfect for a variety of trolling techniques. This rod is also perfect for deep water jigging applications.

Crafted Glass

- Crafted Glass blanks are specifically designed and finely tuned for every action and fishing application
- Hand selected cork handles are used for long lasting performance and comfort
- Balanced components such as stainless guides and graphite reel seats complement every rod
- Custom honey gold paint and legacy guide wraps finish each rod with a custom, crafted look and feel

A CLASSIC IS REBORN!

The Crafted Glass Series offers retro aesthetics with modern function and form. These traditional looking rods come equipped with upgraded features and stronger, faster actions. It's like fishing Grandpa's rod but without the heavy, sluggish action.

Graphite body spinning reel included with these features:

- Lightweight, graphite reinforced body spinning reel
- Aluminum handle with rubber knob
- 2+1 Ball bearings for exceptional performance
- Aluminum spool
- Smooth and powerful drag

SURF BEAST™

Surf Beast spinning combos are built for surf, pier, and jetty fishing with durable composite blanks and saltwater-ready components. The lineup includes lengths and actions for techniques ranging from long casts for stripers and drum to lighter surf presentations for surf perch and other nearshore species. Dependable and affordable, Surf Beast gives anglers reliable combos for saltwater fishing.

EAGLECLAW.COM

The MT. Elbert fly series offers great quality fly fishing gear at competitive pricing. The combos in the series have the added benefit of including everything an angler might need to start fishing immediately including: reels rigged with fly line, backing and leader, assorted flies, tools, and rod case.

Building on the fly fishing options from Eagle Claw®, the MT. Elbert series continues the naming convention started by the high-end Sawatch Fly series released in 2020, of basing rod names on iconic Colorado mountain ranges and peaks. The names harken back to the storied history and roots of Eagle Claw itself, which began on the banks of a Colorado stream in 1925.

INCLUDES:

- Fly Line, Backing and Leader
- Forceps
- Rod Tube
- Nippers
- Reel Pouch
- Assorted Flies
- Fly Box

DESCRIPTION	Fly Combo Kit
LENGTH	8'0"
PIECES	3
ACTION	Moderate
LINE WEIGHT	5 wt.

The Ready to Fish Fly Combo Kit gives new and budget-minded fly anglers the essentials they need to get started. The kit includes a fly rod, pre-spooled fly reel, tippet, and 12 flies, making it easy to rig up and get on the water. Lightweight composite rod construction gives new fly anglers a forgiving action, while cork-wrapped grips provide a traditional look and natural feel. The complete kit format takes the guesswork out of getting started in fly fishing.

THE EAGLE CLAW MISSION

Since 1925, our mission has remained steadfast: provide anglers with the highest quality fishing tackle possible for wherever the fish are biting. We accomplish that through a commitment to American manufacturing, a dogged desire to serve anglers of all levels, and a reverence for the outdoors. We are proud to empower anglers to connect with nature and to enjoy the thrill of fishing.

BORN TO FISH

A fish hook is more than a formed piece of wire with a point on one end and an eyelet on the other. It represents the connecting point between you and your angling dreams, whether sitting on lawn chairs catching trout with friends and family or competing at the highest level in the sport. Since 1925, in Denver, Colorado, the men and women of Eagle Claw have been privileged to ensure that connection.

From the initial founding of the company, where an eagle's talon inspired one of our founders, Drew McGill, to alter his fish hook, the idea that what we make isn't just a fish hook has permeated our company.

Today, every Eagle Claw hook combines generations of American Hook makers' wisdom with cutting-edge technology. These hooks aren't just about connecting anglers to fish; they're about connecting people to nature, tradition, and each other. They're about the thrill of the catch, the peace of the water, and the stories that unfold between.

EAGLE CLAW®
