Exterior Bollard LED

EB49740-AMB-UNV

INSTALLATION SHEET

START FROM HERE

- Make sure **POWER** is **COMPLETELY OFF** at the fuse box
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area
- Wear gloves at all time during this installation
- Read instructions carefully before you start assembly
- Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:

- This Kuzco LED fixture comes with pre-wired LED module(s)
- Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
- For dimming, an ELV (Electronic Low Voltage) or TRIAC type of dimmer is required
- 120~277V input

1. Remove fixture from its original package

2. Provide means to bring supply wiring to bollard in accordance with local code before pouring concrete

3. Secure anchor bolts **(1c)** to mounting guide plate **(1e)** with hex nuts and washers provided **(1d)** before concrete cures **(See Illustration 1)**

4. After concrete is set, replace mounting guide plate **(1e)** with mounting base **(2b)**, adjust mounting base to desired orientation and secure with hex nuts and washers **(1d)**

5. Pull conduit through base plate to make proper electrical connection (black to hot “L”, white to neutral “N”, ground to “GND”) with wire nuts **(1b)** provided in hardware package, tie access wires to avoid contact with ground

6. Align interior bump on fixture base **(3a)** with slot on mounting base **(2b) (See Illustration 2)**, rotate to desired orientation, and secure fixture base **(3a)** to mounting base **(2b)** with screws **(3b)**. Secure fixture head **(1a)** to fixture base **(3a)** with screws **(2a)**
