

LED Flush Mount

FM7-286B

INSTALLATION SHEET

START FROM HERE

- Make sure **POWER** is **COMPLETELY OFF** at the fuse box
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area
- Wear gloves at all times during this installation
- Read instructions carefully before you start assembly
- Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:

- This LED fixture comes with pre-wired LED module(s)
- Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required
- 120V input

1. Remove fixture from its original package
2. Separate mounting plate (1c) from fixture (3a)
3. Attach mounting plate (1c) to electrical junction box (1a) using junction box screws provided (1e) in hardware package
4. Make proper electrical connections (**black to hot** "L", **white to neutral** "N", **ground to "GND"**) with wire nuts (1b) provided in hardware package
5. Choose color temperature by using switch (4a)
6. Twist fixture (3a) onto mounting plate (1c) to secure (See Illustration 1)
