

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Please Note:

- This Kuzco LED fixture comes with pre-wired LED module(s)
- Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
- For dimming, an ELV (Electronic Low Voltage) or TRIAC type of dimmer is required
- 120-277V input

Technical Support: 1-855-855-8926

1. Remove the fixture from its original packaging. Next, remove the mounting plate (1c) from the canopy (2b) by removing the screws (2a). Secure the mounting plate (1c) to the electrical junction box (1a) (through backplate (1e), in case of illustration-2) with screws (1d) provided in the hardware package.

Illustration-1

2. You are now ready to mount the canopy to the mounting bar. First connect all wires (1b) correctly black to black "L", white to white "N" and the ground wire with provided marrettes from the hardware package. Attach the canopy (2b) to mounting plate (1c) and secure with screws (2a)

Illustration-2

3. You have now completed the installation of your fixture, enjoy.
