

# Koble

CONNECTING TASK AND LOUNGE

9to5<sup>®</sup>  
seating

Inspired by nature's dramatic promontories and modern cities' towering skylines, Koble, from the Danish for "connect," is innovative, flexible, welcoming modular seating that transforms spaces through custom configurations.

Developed for smart space planning, Koble is uniquely versatile seating. Forward-facing, curved, L-shaped, U-shaped, O-shaped or even zig-zagged, Koble's design flexibility encourages individualized arrangement. Designed for smart convenience, Koble has power and USB charging options, standard adjustable glides, and a 400-lb weight rating.

Koble's innovative wood "shadow base" is angled to virtually disappear—leaving 2.5 inches of space for easy cleanability. Koble is BIFMA LEVEL2 and GREENGUARD GOLD certified, with recyclable wood components.

Koble is truly soft task seating with a carefully calibrated seat and back to promote an upright, engaging posture—even using a laptop at standard table height. Single seat models can be placed back to back to create an angular back design that’s striking—especially when choosing two-toned upholstery.

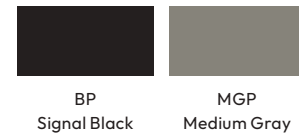

The comfort-calibrated seat and back foster an engaged posture for long sits. Koble's built-in lumbar curve promotes active seating and lasting support with a balance of firmness and softness.
