# Jet Collection

A Complete Open-Plan Solution

# Ready, Set, Jet.

Meet the Jet Collection: the ultimate solution for the modern open-plan office. Jet offers a complete suite of essentials, from capable power beams and height-adjustable desks to convenient storage options.

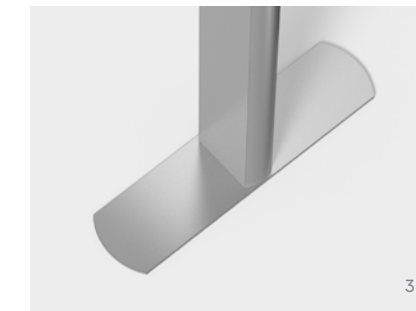

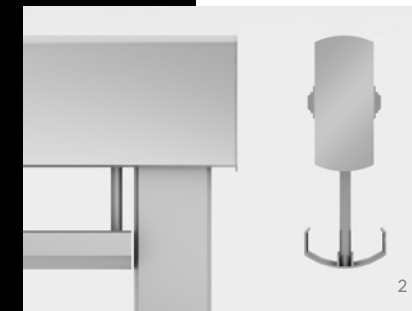

# Curvilinear Design Language.

Jet blends softened geometric curves with everyday utility. Subtle design details elevate the beam, adding sophisticated interest to a highly functional product.

- 1 Curvilinear End Caps and Columns: The Jet design language is consistent throughout the product, beginning with the Curvilinear End Caps.
- 2 Coordinating Cable Trough: The cable trough's form aligns with the beam's curves, creating a unified aesthetic that extends to the product's functional elements.
- 3 Foot Design: The beam is anchored by a curved foot, providing a final touch of design cohesion. The curve radius mirrors Jet bases to ensure aesthetic continuity.

# Form Meets Function

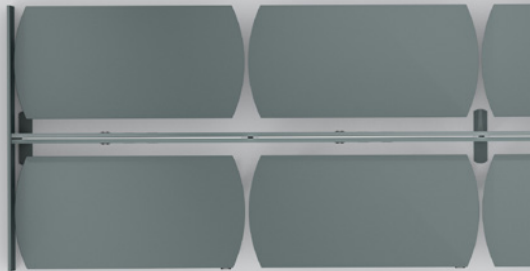

Blending aesthetic appeal with versatile functionality, the Jet Collection offers a tailored solution for every space through a range of heights, shapes, and integrated power options.

- 1 Beam Heights: Available in 24" and 29" heights. Other heights are available upon request.
- 2 Power Options: 3-circuit (5-wire) or 4-circuit (8-wire) power options available.
- 3 End Panel: Laminate end panels are available with an optional painted aluminum trim piece. Available in both single- and double-sided configurations, as well as multiple heights.

- 1 Curvilinear & End Panels: Curvilinear worksurfaces and toppers add visual interest and movement to your floor plan. Use end panels to cleanly enclose your configuration.
- 2 Curvilinear Ends & Terra Planters: Jet's curved-end worksurfaces and toppers soften office aesthetics. Coordinate with Terra Planters to bring a refreshing, natural element to the design.
- 3 Rectangle: Opt for the clean lines of a traditional rectangular shape for a polished look.
- 4 Topper Materials: Acrylic and Glass (frosted or clear) are available in all topper shapes. Fabric is available only as rectangle.

## Work in Style

Thoughtful design and intriguing finishes do more than fill a space – they elevate the daily work experience. Jet top shapes, featuring the consistent curvilinear design language found throughout the collection, create aesthetic continuity in the workspace.

## Tailored Comfort

Elevate your height-adjustable specification with the Jet base. From the distinctive curved foot paired with the C-Leg to the classic, cost-competitive rectangle foot T-Leg, Jet offers a range of design-forward options to suit both aesthetics and project budgets.

- 1 Jet Base: Features a curvilinear end bracket and foot, available with levelers or casters on a C-Leg base.
- 2 Standard Base: For a cost-competitive, conventional design aesthetic, the Standard base features an angular end bracket and rectangular foot on a T-Leg base.
- 3 Single-Stage or Two-Stage Options: Bases come in two height-adjustment ranges – Standard (26.125" - 46.125" with top) and ANSI/BIFMA (22.64" - 49.41" with top).

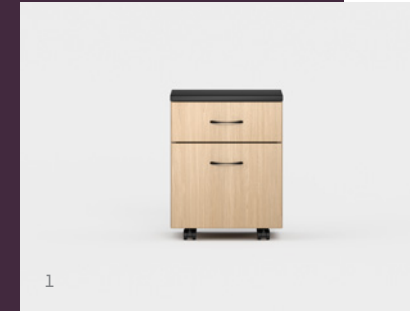

# Flexible Storage Solutions

Designed for seamless integration, Jet storage offers a versatile and reliable organizational system for modern open plans. Achieve a high-performance, clutter-free environment that maintains the visual integrity of your workplace.

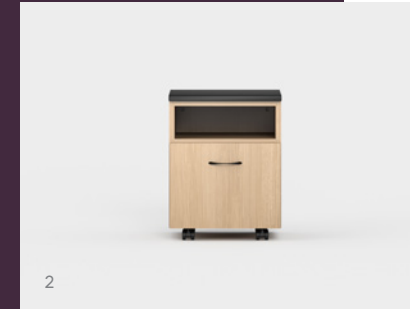

- 1 Mobile Pedestals: Shown with Box/File configuration.
- 2 Mobile Pedestals: Shown with Cubby/File configuration.
- 3 Single-Door Locker: Includes an adjustable shelf, with left- and right-hand orientations available.
- 4 Combo Storage: Shown with Cubby/Double-Door configuration.
- 5 Combo Storage: Shown with Ped/Bookcase configuration.
- 6 Combo Storage Base Options: Available with casters, levelers, or feet.

# Show-Stopping Colors.

Define your space with materials designed to stand out or blend in. The Jet Collection is available as standard in exciting materials like FENIX® colored tops and perfectly coordinated paint finishes.

# Find Value with Jet

Specifying Jet has never been easier. Whether you're prioritizing competitive value or refined aesthetics, the Jet Collection delivers the versatility your project deserves.

	Beam	Bases	Screens	Worksurface	Mobile Storage	Combo Storage
Design Spec						
	8 wire, 4-circuit Powerway	C-Leg, Jet Curvilinear Foot	Fabric	1-1/8" HPL	Box-File	Ped/Bookcase
Value Spec						
	5 wire, 3-circuit Powerway	T-Leg, Rectangular Foot	Acrylic	3/4" LPL	Single-Door Locker	Cubby/Double-Door

6-Pack

8-Pack

10-Pack

12-Pack

Jet's innovative engineering minimizes the number of supports required, maintaining a clean and modern aesthetic. The specific number of legs is tailored to the dimensions of your selected Jet Pack.
