	GE	Z WAVE
Universal	Legrand	Adorne Softap
		Miro Decorator
		Harmony
		Adorne Whisper
		Adorne Touch
	Cooper	Decorator
		Skye

*Maximum Tested (Lamps per Dimmer) - Additional lamps may work with your dimmer system. For maximum capacity please consult dimmer
†May experience "pop-on", lights cannot be turned on immediately to their minimum level. The slider needs to be raised above the minimum level
were initially off. Then, the slider can be lowered to get to a lower light level; the dimmer cannot be turned on to just the minimum level.

Overall Rating

Not Compatible	One or more of the following observed: Major flickering at various points, significant audible noise
Bad	One or more of the following observed: Some flickering observed at various points, audible noise
Good	One or more of the following observed: Minor flickering at some point may exist. Dead travel These periods of dead travel are minor and most of the time not visible. Minor audible noise
Best	Most of the following observed: No flickering, minimal audible noise (typically less than 20 dBA)
High End (H.E.) Dead Travel	Determines how much, if any, dead travel exists at the top and bottom of the dimmer's range
Low End (L.E.) Dead Travel
