

21-1163

21-1163

CORE ATTRIBUTES

SKU	21-1163
Name	Oil Only Sn Booms 20cm x 10m

MARKETING

Features & Benefits	• Specialised oil-only absorbency captures and retains oils and oil-based liquids, including fuels and lubricants, while repelling water to ensure maximum efficiency in marine and wet environments • White colour improves visibility in outdoor or marine environments and makes saturation levels easy to monitor • Two size options for different conditions: the larger 20cm boom offers greater control in open water, while the 13cm boom is lighter, easier to handle, and quicker to deploy and retrieve • Manufactured from premium polypropylene, ensuring excellent absorbency, durability, and long-lasting performance • Clips positioned 60cm from each end enable fast, reliable connection and improve deployment efficiency
