

CORE ATTRIBUTES

SKU	31-3006
Name	Workfloor Linking Strip 700mm

MARKETING

Features & Benefits	• Linking strip designed to securely connect 2-drum workfloors, creating a continuous and stable containment area • Clips into place easily without the need for tools, allowing fast installation and reducing setup time • Supports consistent secondary containment across multiple platforms, improving spill control during day-to-day operations • Rigid construction maintains alignment between workfloors, reducing movement or separation under normal loading conditions • Linking multiple workfloors extends the effective containment footprint without requiring permanent fixtures or floor modifications • Modular design allows containment layouts to be easily reconfigured as operational requirements change • User manual available on request to support correct installation and system configuration
