STORAGE FOR TODAY'S TEACHING

Create easy access to learning resources

Nothing stands still in teaching, and we know that your space is at a premium. Callero makes your learning environment work better.

Meeting the needs of every child in your class means differentiated resources.

To achieve mastery, abstract learning starts with concrete manipulatives – particularly in math. Some students are ready to move on faster than others. Callero storage on wheels gives you exactly what you need, wherever you need it in the learning area: from students needing the additional stretch to those struggling to meet expectations.

With demands on phonics and literacy greater than ever before, create easy access to everything you need.

Foam letters, digraph magnets, flashcards, overlays, reading rulers, phonics mats: they all need separate storage. Having a tray system in place for each one reduces lesson set-up time and means students can collect what they need, without an adult setting up in advance. For inspiration, we've also designed our units so that books and other learning resources can be displayed on top to draw students in.

Callero is an organic storage system that grows as your teaching needs change.

Our modular Callero Custom wall units let you build up or build across, giving you the smallest footprint for the largest storage capacity. At Gratnells, we have more options than any other school range and the most flexible solutions for limited spaces.

“RESOURCES RIGHT WHERE I NEED THEM, WHEN I NEED THEM - NOT STUCK AT THE SIDE OF A ROOM IN HEAVY WOODEN FURNITURE.”

Michael Williams, Headteacher

MAKING SEND SUPPORT WORK

Every student's needs are different; let Callero help

In today's inclusive learning environment, it's essential to provide resources that support those with neurodiverse needs.

Task boards and timers, writing slopes and overlays, fine motor materials and sensory supports – all these resources need storage that allows swift access to meet your student's needs. With this in mind, Callero offers different sized trays for smaller and larger items.

Callero also means agility for small group working

Until the learning has started, we don't always know who needs support for an activity or which resources will help. With ergonomic handles, casters and a structure up to 30% lighter than wooden equivalents, students can move Callero units to a table or carpet area. It gives them easy access to everything they need to support their learning activity.

Students can be active in setting up their own group work

We know how important collaboration and independence are for students with SEND. With lightweight, mobile Callero units and StopSafe tray runners, it's safe and easy to move resources to where they are needed, without adult support. Our lift-to-remove system uses clips to only allow trays to be pulled out to a certain length. Should the tray need to be totally removed from the storage unit at any time, a simple upwards tilt will allow it to be fully withdrawn.

Our units also help build a sense of pride in group or paired work. Their flat magnetic sides allow you to display visual instructions and mean that work in progress or completed projects can easily be affixed, transforming the space into a project center.

Trays make pre-learning and overlearning simpler

Opportunities for consolidation are vital for students with EAL or additional needs. Gratnells trays are ideal for setting up and storing pre-learning and overlearning activities for individuals, pairs or groups.

“EASY ACCESS TO RESOURCES ALLOWS THE CHILDREN TO MAKE THEIR OWN LEARNING CHOICES.”

Emma Norman, Teacher

STEAM & CRAFT ACTIVITIES NAILED

**Do you want to
set up a designated
maker space area
in your school?**

**We've got the ideal solution
with our Maker and STEAM
carts for hands-on practical
activities and storage.**

The combination of tray sizes in our carts means you can store all the resources you might need. Large casters make maneuvering them a breeze. StopSafe runners make the trays extremely secure and student-friendly.

**CALLERO CARTS PROVIDE
ALL STUDENTS NEED TO
COLLABORATE, CREATE,
INVENT, DESIGN AND BUILD**

Callero MakerSpace

Students enjoy carrying out hands-on, practical tasks. Whether this be STEAM, art or another type of creative activity, students need to have adequate space and access to resources to allow them to successfully complete projects.

The ultimate makerspace resource – ideal for collaborative STEAM-based project work. The top bench doubles as a workstation or presentation space. Handy tilted trays and a roll holder give unique flexibility.

MyBASE™

Rethinking the way teachers move, teach, and more importantly ENGAGE with students

Education is about engaging learners. Yet too often, the tools we give educators limit their ability to connect, inspire, and transform learning. That's why we created the Gratnells MyBASE. More than a desk, MyBASE is a doorway to possibility.

DIMENSIONS

H930 x W930 x D566mm

BUILDING ACTIVE STUDENT ENGAGEMENT

MyBASE
Containing 3 x trays

MyBASE+
Containing 2 x trays
& lockable cabinet

“MyBASE has helped me to create a more inclusive learning space, specifically for children with hearing difficulties”

Teach, Move, ENGAGE

MATCH CALLERO CUSTOM TO YOUR ACTIVITIES

Build up or build across to make your space work. You can create anything from a cozy library to a full-height, comprehensive resource center. You can mix and match tray units with shelving, for example, to provide a learning area that contains everything students require for their lesson

Whatever space you have available for storage, whether it's a corner or an entire wall, you can create the perfect solution with Callero Custom

StopSafe runners

Sturdy powder-coated hard-wearing steel

Braked casters to secure position

100% recyclable

Antimicrobial options

Time Saving

Easy access

Ergonomic handles

Flat magnetic sides

Callero Custom is designed to offer high density storage on a smaller footprint.

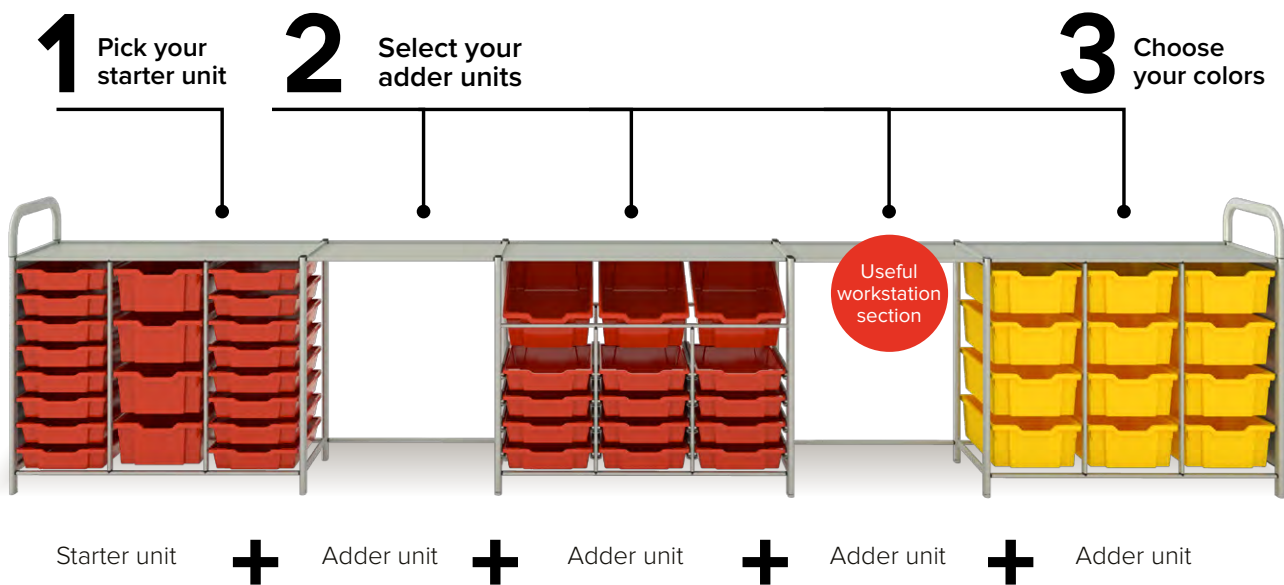

The possibilities are endless.

Low units

Our Callero Custom low units are designed to offer high-density storage on a smaller footprint whilst also providing extra work surfaces for students to use.

Maker Space

Students enjoy carrying out hands-on, practical tasks. Whether this be STEAM, art or another type of creative activity, children need to have adequate space and access to resources, to allow them to successfully complete projects. Low level units with workstations offer a dedicated space to work while having plenty of storage space close by.

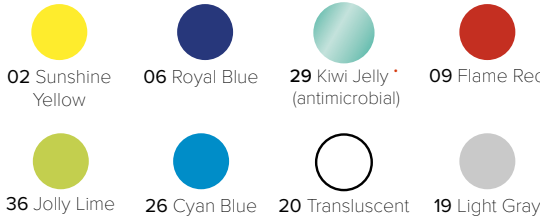

Library

Encouraging students to have an appetite for reading is critical. Low-level units with trays and shelves allow them to choose books independently and browse a range of fiction and non-fiction texts.

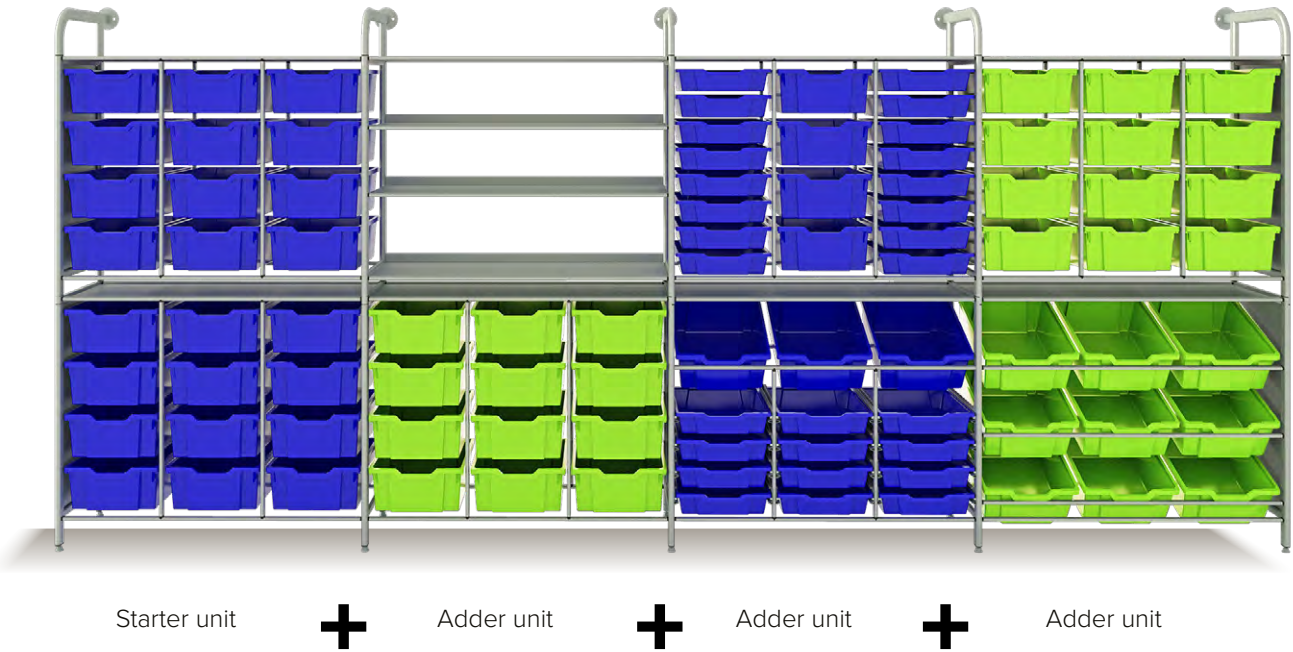

TRAY COLORS

UNIT	DIMENSIONS
Low Triple Starter Unit	H38.8 x W40.6 x D17.3in
Low Triple Adder Unit	H38.8 x W39.4 x D17.3in
Tall Triple Starter Unit	H71.3 x W40.6 x D17.3in
Tall Triple Adder Unit	H71.3 x W39.4 x D17.3in

Mix and match tray units with shelving, for example, to provide a learning area that contains everything students require for their lesson.

Tall units

Callero Custom Tall Units create high-density storage to contain every possible resource students require for their lessons.

Resource Zone

Students are encouraged to take responsibility for resources and their belongings. Taller, high density storage units allow you to store and organize materials and enable students to be independent, accessing them when needed. Trays at different heights give you options for teacher-directed resources higher up and easy access for students lower down.

Our Callero range contains

THE TOUGHEST TRAYS ON THE MARKET
