

## Declaration of Conformity REACH, POPs and PFAS Compliance

We hereby declare that, to the best of our knowledge and based on information provided by our raw material suppliers, our plastic and metal products comply with the applicable requirements of REACH, POPs and PFAS regulations.

This declaration is based on:

- compliance information and declarations provided by our raw material suppliers;
- selected verification testing, performed as part of our quality and compliance assurance activities;
- our knowledge of the manufacturing process, which involves no chemical reactions, only physical mixing and processing of materials.

We do not intentionally use in the manufacturing of our products any substances restricted or prohibited under the mentioned regulations.

The absence of the above substances has not been verified systematically by comprehensive analytical testing for all regulated substances and is primarily declared based on the information provided by our raw material suppliers, which they are legally obliged to provide to downstream users. Therefore, it cannot be excluded that trace levels of such substances may be unintentionally present as impurity.

This declaration is issued in good faith, based on the information available at the date of issue, and is valid until the next relevant legislative and/or regulatory change.
