

A photograph of two young girls, one of Asian descent and one of African descent, both smiling and looking at a small object held by the girl on the left. The background is a solid blue color with a white slatted fence visible on the left side.

Gratnells

STORAGE SOLUTIONS

Our shape,
our trademark™

gratnellsusa.com

SPACE MATTERS. LET'S DESIGN LEARNING BETTER.

We can do it together.

For more than a generation Gratnells has been leading the way in researching and reimagining more effective, sustainable, and inclusive, spaces and places, in which we learn, teach, work, and of course play.

Built around our best-selling school tray, we throw in a heap of practicality, a splash of color, fun, and innovation to make a real difference to daily life for literally millions of students, teachers, and not forgetting technicians, who have known the name 'Gratnells' for more than half a century.

With decades of experience Gratnells has earned its position as the preferred supplier to the world's leading furniture makers, dealers, schools, businesses, and institutions. We also offer some of the fastest lead times, meaning we can provide you with the right storage and organizing solutions as soon as possible.

As a family business starting from cozy corners in every UK school, our

storage solutions have evolved into a global footprint spanning over 68 countries and counting. At the center of a school's ecosystem, our trays and runners fit seamlessly into new or existing educational furniture, and we are also the main provider of storage trays to the wooden furniture industry.

Central to Gratnells purpose is the determined spirit of our MD, Murray Hudson. Murray's commitment to enhancing learning spaces is reflected in his book, *Planning Learning Spaces*, a practical guide for Architects, Designers, and School Leaders. His passion catalyzed the inception of The Cambridge Centre for Learning Spaces Innovation, a space for the exchange and discussion of new ideas to advance excellence, innovation and wellbeing in school design and the home of the Planning Learning Spaces in Practice team.

It is this team of like-minded educational visionaries that bring together Gratnells trade partners, educators, and forward-thinking

school architects to pool their collective expertise and support a framework tailored to encourage and inspire the design of more intelligent learning spaces that have quantifiable results in improving learning and educational outcomes.

Gratnells commitment to sustainability is of equal importance and includes an Environmental Policy that is committed to a target of zero to landfill and carbon neutrality by 2030 and we are the only educational furniture manufacturer within the plastics industry to commit to Operation Clean Sweep®, an international initiative to reduce plastic pellet loss into the environment.

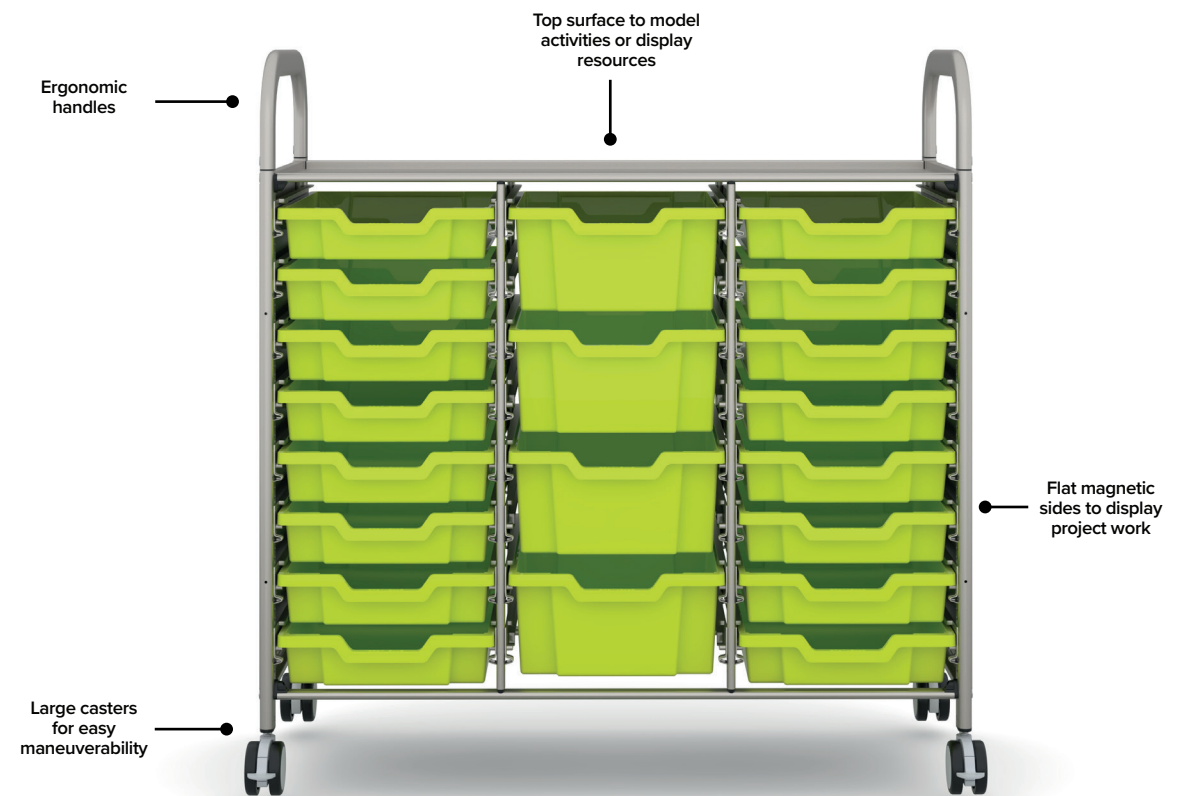

So, we're confident we can provide the solution for your every need or space. And if you're looking for something even more bespoke, then our friendly and highly knowledgeable team will be delighted to assist and help you build exactly what you need.

The possibilities are endless.

- Rounded corners for enhanced safety
- StopSafe runners for safe access to resources
- Supplied with feet for static option
- Braked casters to secure position
- Sturdy, powder-coated, hard-wearing steel
- 100% recyclable
- Antimicrobial options

Our premium **Callero range** is far more than just classroom storage.

MAKE, MOVE, WRITE & DISPLAY

Our Callero range sets a new standard for school storage. A flexible range of modular units, you can choose the solution that works best for you. With space at a premium and classroom numbers increasing, Callero's ever-adaptable storage is here to solve all your needs. That doesn't mean you need to compromise on style. One

look at our vibrant Callero range will tell you this is no ordinary storage solution. Our sleek carts, with ultra smooth rounded edges encourage multi-site learning spaces and are available in classic Silver, all customizable with Gratnells iconic trays, available in a range of colors. So, no matter what the color palette, the Callero range will fit right in.

NEW

Where you stand changes everything.

Education is about engaging learners. Yet too often, the tools we give educators limit their ability to connect, inspire, and transform learning. That's why we created the Gratnells **MyBASE**. More than a desk, **MyBASE** is a doorway to possibility.

KIND TO THE PLANET,
CARING FOR THE FUTURE

SIMPLE TO SHIP,
EASY TO SET UP

- **Built for engagement**
Developed by experienced educators, its design fosters interactive, student-centered teaching approaches.
- **Promotes agile teaching**
MyBASE allows teachers to move freely around the learning space, promoting dynamic interaction and better engagement with students. It also enhances one-to-one interaction, enabling more effective and responsive curriculum delivery.
- **Built for engagement**
Developed by experienced educators, its design fosters interactive, student-centered teaching approaches.
- **Promotes agile teaching**
Allows teachers to move freely, creating dynamic interaction, stronger engagement, and responsive one-to-one teaching.
- **Boosts student involvement**
Encourages active participation, builds confidence, and supports personalized teaching for every learner.
- **Designed for inclusion**
Unobstructed sightlines empower students with hearing difficulties to lip-read, connect, and stay fully engaged.
- **Make transitions effortless**
Improves visibility and mobility for smooth activity changes, reducing downtime and keeping students engaged.
- **Flexible and adaptable**
Fits diverse teaching styles and spaces, making classroom changes quick and effortless.
- **Practical and organized**
Integrated trays make storage simple, keeping spaces tidy and teaching time maximized.

Large casters for easy maneuverability

Top surface to model activities or display resources

- Rounded corners for enhanced safety
- StopSafe runners for safe access to resources
- Supplied with feet for static option
- Braked casters to secure position
- Sturdy, powder-coated, hard-wearing steel
- 100% recyclable
- Antimicrobial

Our **Callero Shield range** is treated with **BioCote®** antimicrobial coating, offering built-in defence against viruses and bacteria.

BioCote® antimicrobial technology is introduced to products during the manufacturing process to protect against the negative effects of odor-causing and staining microbes, such as bacteria and mold. This protection remains effective for the expected lifetime of the product, complementing regular cleaning practices. BioCote® additives comply with relevant US standards.

THE BRILLIANCE OF SUSTAINABLE METAL

At Gratnells, we're all about sustainability,
and metal furniture is a perfect eco-friendly choice

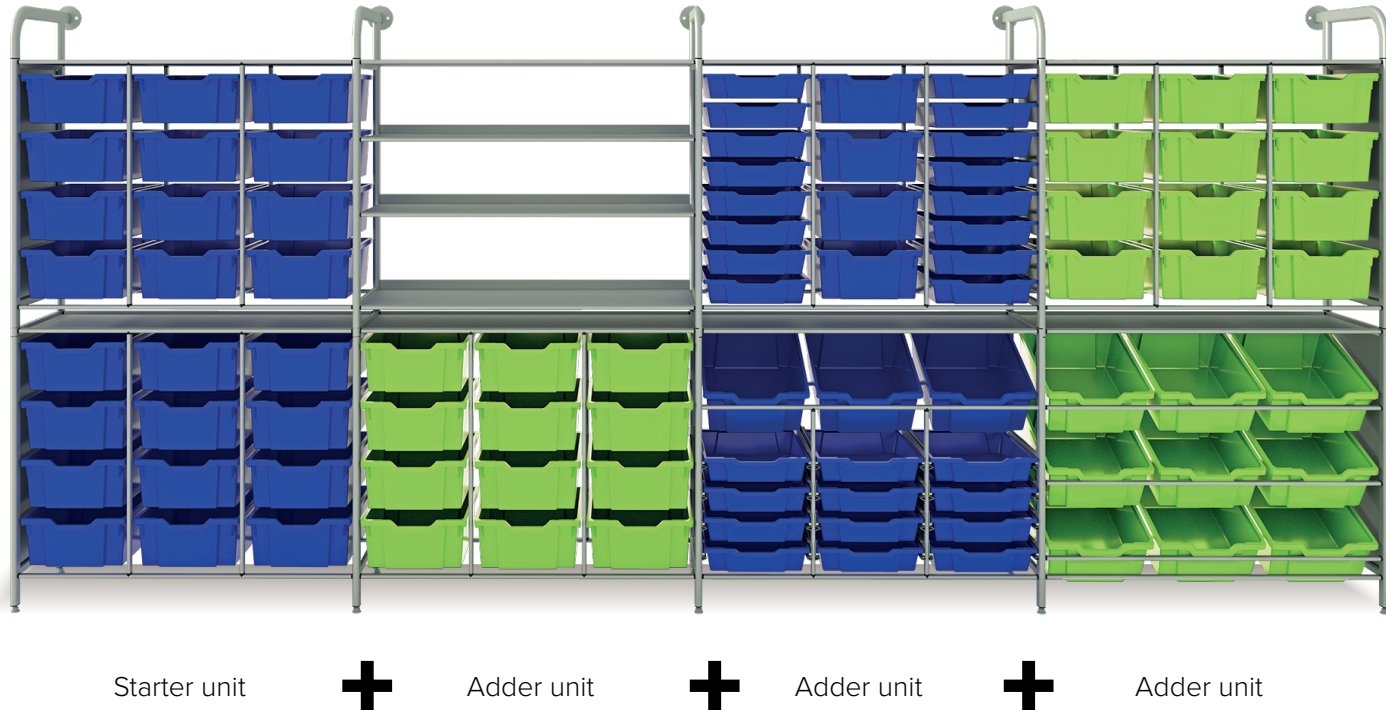

Our **Callero Custom** modular units provide storage layouts to match your classroom needs.

- Rounded corners for enhanced safety
- StopSafe runners for safe access to resources
- Supplied with feet for static option
- Maximize storage
- Braked casters to secure position
- Sturdy, powder-coated, hard-wearing steel
- 100% recyclable
- Antimicrobial options

Whether for a small corner or an entire wall, Callero Custom is the storage solution that can be tailored to any needs and integrated into a space faster than other built-in customizable storage solutions. The modular system can be configured to create anything from a compact, cozy library to a full-height, comprehensive resource center. Simply begin with a tall or low starter frame and then select any number of frames to build up or across – the possibilities are endless and the system can be extended to meet end-user needs. Our low units are designed to offer high-density storage on a smaller footprint whilst also providing extra work surfaces for students to use. Tall units creates high-density storage to contain every possible resource students require for their lessons.

TIDY, ORGANIZE & STORE

The Dynamis range offers flexible, effective storage solutions for any classroom. High density storage on a small footprint maximizes learning space without compromising capacity or safety.

For flexibility, low and mid profile frame options come with both casters and feet, giving the option of a static unit or a mobile cart. Trays are interchangeable between the two, so equipment can be easily

moved around classrooms and learning spaces as needed. The tall units come with wall-fixing brackets for safety and provide floor-to-ceiling storage space with the option of additional trays, or open shelving to display anything from equipment as learning prompts, books to encourage reading, or student work to promote self-esteem.

- With StopSafe, it's safe and easy for students to access resources without adult support. Teachers and assistants are freed up to spend more time facilitating learning and providing support to children with additional needs
- Students can access resources independently, boosting their self-esteem and allowing them to benefit from more active tasks.
