

Digital Learning Production Kit #1

DLPK1

With digital or online learning courses becoming a requirement for graduation in many states, teachers must prepare their lessons for students to take either asynchronously or synchronously. Even if the lessons are prepared, teachers have to provide some guidance or introduction to the course. This kit includes everything a teacher needs to create professional looking, well produced videos!

This Kit includes:

(1) HB Green Screen Production Kit

The HB Green Screen Production Kit includes everything a student, a classroom or a school needs to create engaging and professional looking broadcasts, presentations and short movies.

- (1) 9' x 60" green screen backdrop cloth – perfect for chromakeying – the process of filming a scene, object or person in front of a screen, typically green, then replacing it with any scene or background to achieve special effects. Highly saturated, for accurate color-balancing, the HB green backdrop is ideal for use in any video project.
- (1) USB webcam – 720p HD webcam with bendable gooseneck, non-slip, weighted base and built-in microphone.
- (1) I Can Present editing software – powerful editing software with teleprompter, split screen, picture-in-picture, scroll text features, chromakeying and more!

With a quick and easy setup of the green screen backdrop in front of the included webcam, students can create short news broadcasts, weather forecasts, short reviews, virtual visits to far away places – the planets, the solar system, the Pyramids, the Amazon, the ocean depths, even time travel, all without leaving the classroom.

Software features:

- Import images, slides (e.g. PowerPoint and Keynote), PDFs, and easily add backgrounds
- Add scripts and scroll copy with teleprompter feature
- Add date and time symbols
- Show a news ticker

(1) 2.4GHz Ultra-Lightweight Wireless Lavalier and Handheld Microphone System

This wireless lavalier microphone boasts 2.4GHz stable transmission with built-in handheld mic/external lavalier mic with volume adjustment for Vlogging, Recording Videos, Interviews, etc. Combo clip-on and handheld microphone in one! Plug-and-play simplicity – pairs automatically in approx. 2 seconds. Excellent 2.4GHz digital wireless transmission technology ensures you get high quality, clear sound with up to 100 ft. communication range.

- Intelligent noise cancellation: Automatically identifies noise and optimizes the original sound. A 2 hour charge lasts up to 6 hours.
- Wireless mic comes with phone/PC switch and proper switch must be selected to work with certain devices. The system can be used with a smartphone, PC, DSLR camera, camcorder for recording, interviewing, podcasting, and more. It can also work with a PA system, voice amplifier, Bluetooth speaker, etc.
- Transmitter and Receiver, Wireless Transmission: 2.4GHz
- Frequency: 20Hz~20KHz
- Polar Pattern: Unidirectional
- Sensitivity: -30dB ±3dB
- Transmission Range: Approx. 100 feet
- Input (Transmitter): 3.5mm Audio Interface
- Output (Receiver): 3.5mm TRRS
- Power Supply: Built-in Li-Ion, 650mAh
- Charge Port: Micro-USB, DC 5V=1A Max.

Shipping: 3 lbs., 12" x 10" x 7"
Warranty: 1 year
