

Smart-Trek™ Deluxe Stereo Headphone

Native USB-C with Integrated USB-A Dongle

Built for Today's Classrooms, Ready for Tomorrow's Tech

ST1BKUC

deluxe headphones

The Smart-Trek™ Deluxe Stereo Headphone is a USB-C-native audio solution with an attached USB-A dongle, delivering seamless compatibility across modern and legacy devices in one headphone. This dual-interface design simplifies purchasing and deployment for schools and organizations with mixed device environments—no separate adapters or multiple models required.

Ideal for classrooms, labs, and media centers, this dual-interface headphone works effortlessly with PCs, Macs, Chromebooks, and most gaming systems. The integrated USB-A dongle remains permanently attached, helping reduce accessory loss, replacement needs, and classroom downtime.

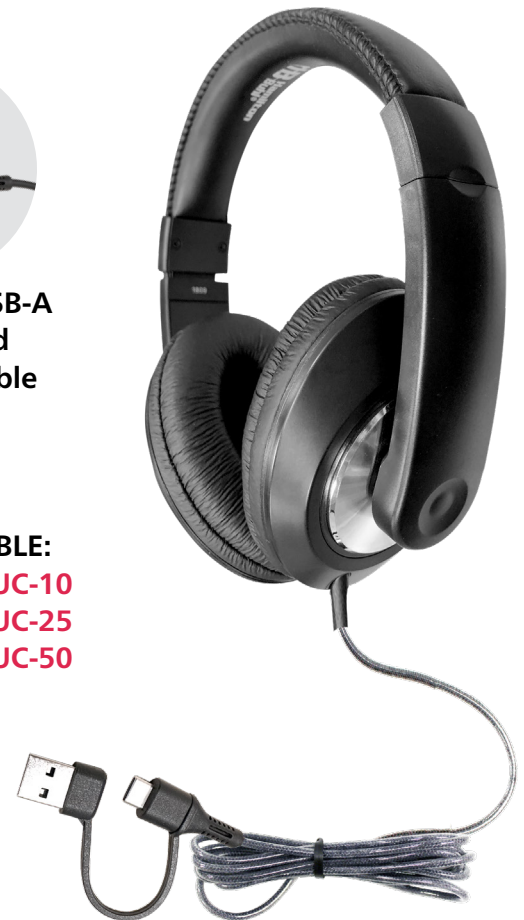

Built to withstand the demands of the K-12 environment, the Smart-Trek™ Deluxe Headphone combines a sleek, professional design with rugged construction engineered for long-term durability and reliable, year-after-year performance.

Engineered for comfort during extended use, it includes easy-to-clean leatherette ear cushions with excellent noise isolation. The design is completed with HamiltonBuhl's exclusive Dura-Cord™—the chew-, kink-, and knot-resistant, PVC-jacketed braided nylon cord built for daily classroom use.

USB-C with USB-A Dongle and Strong, Durable Leash
