

# HamiltonBuhl® Headset Splitter

Quickly and Easily Share Your TRRS Headset Mic and Audio with Almost Any Other Device!

## TRRS-2

This handy headset splitter splits one TRRS male 3.5mm jack cable into two TRRS female 3.5mm ports, both with mic and audio functions.

- Can be used to connect two TRRS headsets or mics to one laptop, smartphone, Xbox, or for use when sharing a computer during conference and zoom-type calls
- Can be used to split the audio output into two separate sets of headphones or headsets.
- Lightweight, small, convenient, and compact design – easily carry it anywhere!

A great solution for sharing presentations, videos, lessons, and conference calls with others

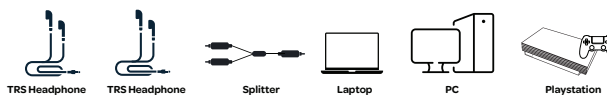

- Cable Length: 12"
- Warranty: 1 Year

### Compatibility

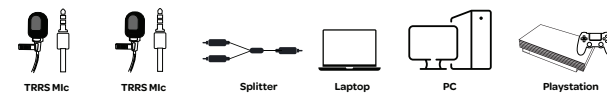

#### Audio Only

2 TRS Headphones to PC

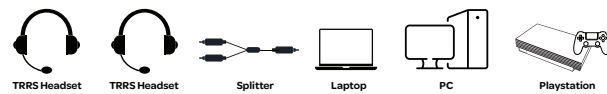

#### Mic Only

2 TRRS Mics to PC

#### Audio + Mic

2 TRRS Headsets to PC

#### Please Note:

1. When using MIC function, both headset or mic should be TRRS.
2. A TRRS plug has 3 rings, whereas a TRS plug has 2 rings.

Easily Share 1 Audio Output into 2
