

BZK Antiseptic Towelettes

Dealmed BZK Antiseptic Towelettes

are professional-grade sanitizing wipes designed to help prevent infection in minor cuts, scrapes, and burns by protecting against harmful bacteria. Individually wrapped and pre-moistened, these towelettes provide gentle yet effective antiseptic cleansing without the need for soap and water. Ideal for use in doctor's offices, clinics, hospitals, and other medical settings, they're also well-suited for first aid kits, travel, and everyday care.

- Individually wrapped
- Size: 5" x 7"
- Contains benzalkonium chloride (BZK)
- Alcohol-free
