

MR16 GEN 6

DESCRIPTION

The Brilliance Gen 6 MR16 Bi-Pin combines performance with a sleek, redesigned housing for a modern look, while offering a high CRI >92 for superior color rendering. With exceptional efficiency, it delivers reliable, energy-saving operation. The lamp includes four swappable optics (with the 30° pre-installed) for easy customization to suit various applications. Designed to perform in enclosed fixtures, it features thermal management for extreme heat and is dimmable with most magnetic transformers. Ideal for damp locations, this lamp combines functionality and adaptability in one package. Not for underwater use.
