

ACROBAT™ 160

63MM - 160MM (2" - 6")

MADE FOR
MECHANICAL
HVAC
PLUMBING

The Acrobat 160 is a low-force fusion machine that allows operators to butt fuse pipe in tight work spaces. With its small footprint and optimal weight, it is an easy machine to manipulate when performing overhead fusions in tight spaces as well as on the ground.

For even tighter spaces, the Acrobat 160 can be configured from 4 jaws to 3 jaws without using tools. It also comes with a Hydraulic Power Unit (HPU) and inserts for commonly butt-fused polypropylene pipe sizes. The facer and heater can be loaded from the top or bottom (in the 3-jaw configuration) of the carriage giving the operator better access and flexibility regardless of the joining challenge.

STANDARD FEATURES

- ✓ Small footprint, lightweight
- ✓ Tool-less conversion from 4-jaw to 3-jaw carriage for tight work spaces
- ✓ Narrow jaws allow fusions for flanges to outlet branch of tees and most fittings
- ✓ Single insert design
- ✓ Removable upper jaws
- ✓ Hard anodized aluminum wear surfaces for corrosion resistance
- ✓ Low-power consumption
- ✓ DataLogger® compatible
- ✓ Premium shipping container serves as work surface
- ✓ Open-frame HPU design offers easy access for maintenance
- ✓ Microprocessor-controlled heater with anti-stick, Teflon-coated butt plates

DataLogger
