

2" IPS LINETAMER®

2" IPS

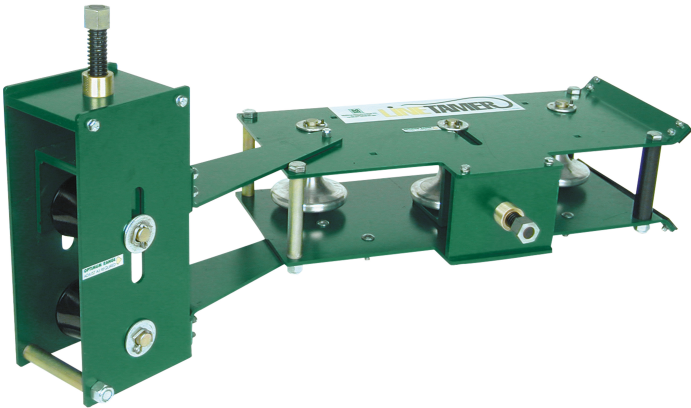

MADE FOR
UNDERGROUND
CONSTRUCTION

STANDARD FEATURES

- ✓ Straightens and re-rounds pipe
- ✓ Can install a full coil of pipe with only two fusion joints
- ✓ Removes coil set for speedy installations
- ✓ Ball thrust bearings for easy adjustment
- ✓ Self-contained hydraulic power unit

With the McElroy LineTamer, you can quickly install coiled pipe, conduit and duct. You can install an entire coil of pipe with a minimum of two fusion joints. The LineTamer cost-effectively straightens and re-rounds coiled pipe to meet or exceed ASTM D2513 ovality requirements. It removes coil set for speedy installations on the job site. The 2" IPS LineTamer allows you to straighten and re-round 2" IPS pipe, conduit and duct quickly with minimal training. Ball thrust bearings make for easy roller adjustment to remove the coil set in the pipe for straightening.
