Pumps & Control Systems

Firefighting Pumps & Carts

Fire Pump Cart

This handy all-in-one fire-fighting solution carries a powerful pump that shoots water up to 85 ft! All fittings are included. Kit includes a 2" suction hose (12' long), foot valve, 1 1/2" fire hose (50' long), priming jug and fire nozzle. Plus, the oversized wheels on the cart allow for easy transportation.

Features:

- Firefighting kit that includes the hoses and accessories needed to setup and operate the high pressure pump to spray water up to 80 feet.
- Commercial Honda engine with excellent weight to power ratio. Designed to be used all day, everyday.
- High pressure pump that displaces water like normal pumps, but also has the ability to spray water with the correct attachments.
- Steel roll cage cart has everything needed to move and set up the system.
