Why Offer KODAK FSC®-certified Papers?

FORESTS FOR ALL FOREVER™

What does FSC®-certified mean?

FSC®-certified papers are sourced from responsibly managed forests that ensure trees are replanted and that wildlife, local communities, and the environment are not harmed. The Forest Stewardship Council® (FSC) tracks its paper from forest to consumer.

Why is it important to offer FSC®-certified products?

- One and a half acres of forest are cut down every second.
- The rate of deforestation equals the loss of 36 football fields every minute.
- Loss of forests contributes between 12% and 17% of annual greenhouse gas emissions.

What does it mean for your business?

- Enhance your business' image by demonstrating a commitment to sustainable printing.
- Increase revenue by capturing the growing market of eco-conscious consumers.
- Differentiate your company as sustainable and use this competitive advantage.
- Environmentally responsible businesses are looking for the FSC® logo.
- FSC®-certified paper is fast becoming the norm in the print industry.
- Get the assurance you are doing your part in protecting the world's forests.
