

For the week of November 27, 2022
Preacher: Paul Taylor

The Power of Place

First week in the Advent series: Things of Earth

As we begin the Advent season, we'll be reflecting on how the birth of Jesus changes the way we think about the things of earth. Jesus was born in a particular place. What does that mean for how we think about our physical place in the world? Does God care about places? What are his purposes for the Silicon Valley? Join us as we explore these questions.

Discussion Questions:

1. In your experience, what is the connection between people and place? Family and home? Community and location?
2. What are some of the unique aspects of the place where you live? What about where you work or spend the majority of your time?
3. Is there a particular way that you feel called to the place you live?
4. How might God be calling you to expand your sense of calling to your place?
