ENTERPRISE ZONE INFORMATION

The City of Champaign was awarded an Enterprise Zone by the State of Illinois which began on January 1, 2016. The goal of the Enterprise Zone is to stimulate economic growth and neighborhood revitalization in economically depressed areas of the state by providing state and local tax incentives. Each Zone across the state is tasked with developing a set of programs to achieve this goal.

The Champaign Zone contains six programs targeting specific types of redevelopment.

These programs provide for property tax relief (from participating agencies) on post construction taxes as well as the issuance of a Building Material Sales Tax Exemption Certificate.

This certificate allows the holder to purchase materials used for permanent building improvements to be purchased sales tax free in the State of Illinois. These certificates are issued directly to the contractor or purchaser of materials by the Illinois Department of Revenue on behalf of the City and County.

VALUE ADD OPPORTUNITY

The property benefits from long-term 100% occupancy and a new owner could add significant value over time by increasing rents closer to market rate – we see achievable rent increases in an as-is condition of 10% - 15% on retail spaces. A new buyer could realize additional value and NOI by updating the building facades to bring new life to the buildings.

Case Study – Royal Plaza > Neil Street Commons

Royal Plaza was a tired looking center that consistently had vacancy and was difficult to lease up and had average rents of \$8.00/SF NNN. Ownership invested in a new façade, landscaping and signage, and also rebranded the shopping center to Neil Street Commons. The shopping center became 100% occupied within 6 months of the renovations and average rents increased to \$12.00/SF NNN – a 50% increase in average rents!
