PROPERTY OVERVIEW

The University of Illinois established the Research Park to attract leading high-technology companies, accelerate the commercialization of University-driven innovation, and foster long-term **economic growth**. Today, it stands as one of the premier university-affiliated research parks in the country.

The Research Park creates a dynamic environment where technology-based businesses collaborate directly with University of Illinois faculty and students. Tenants benefit from proximity to world-class **laboratories, specialized equipment, and research resources** – enabling strategic partnerships that advance product development, applied research, and commercialization initiatives.

Companies located within the Research Park receive **Allied Agency status** with the University of Illinois, providing streamlined access to campus resources and strengthening integration with the broader academic ecosystem.

Just minutes from central campus, the Research Park is home to more than **120 companies** employing approximately **2,000 professionals** in high-technology fields. At any given time, there are ~800 University of Illinois student interns at work within the Park, contributing leading-edge technical expertise while gaining hands-on experience in corporate research, engineering, and product development.

With its vibrant entrepreneurial culture, direct access to talent, and strong institutional support, the University of Illinois Research Park offers a uniquely collaborative setting for companies seeking innovation, growth, and competitive advantage.

RESEARCH PARK BENEFITS

FOSTER A COLLABORATIVE RELATIONSHIP WITH THE UNIVERSITY OF ILLINOIS

Develop new ideas for joint innovation and research to address company needs. Receive faculty input on latest innovations and challenges. The on-campus location provides access to early awareness and tracking of trends, helping innovate based on academic and industry early emerging technologies and strategies.

EMPLOY STUDENT INTERNS & GRADUATE RESEARCH ASSISTANTS

Students can easily be employed for cost effective access to a high caliber workforce as a supplemental staffing solution for R&D work and a future recruiting pipeline to create and retain intellectual property.

HIRE FACULTY AS CONSULTANTS

Faculty may work up to 20% of their time on outside business. Key faculty could be efficiently employed for research and help managing student projects.

SUPPLEMENT RESEARCH WITH UNIVERSITY SPONSORED RESEARCH

If a company has a need for targeted access to faculty expertise on specific projects, a sponsored research agreement can be established.

FACILITY USE AGREEMENTS FOR LAB ACCESS

Research Park companies have access to University labs through fee-for-use Facility Use Agreements. Research Park companies have discounted indirect cost recovery fees. These high-tech facilities can supplement Research Park and corporate facilities.

ENTREPRENEURIAL ENVIRONMENT

Interactions with cutting edge new companies in the Incubator that are leveraging SBIR and other federal grants to develop the newest technologies that can be commercialized. Create a new offsite entrepreneurial setting for innovators to develop new concepts.

PEER-TO-PEER LEARNING

Companies can interact with other leading corporations that have established R&D offices in the Research Park, non-industry specific best practices can be applied such as data mining and analytics.

RETAIN INTELLECTUAL PROPERTY

Work done at the Research Park by student employees and paid interns will result in intellectual property ownership by companies rather than the University.
