

## WHAT IS CONNECT COBB?

---

- The Connect Cobb project includes arterial rapid transit (ART) service and associated improvements on US 41/Cobb Parkway
- **ART** is descriptive of a system that would operate on arterial roads and is now a common term for similar transit systems
- The proposed project would:
  - Begin near the intersection of Chastain Road and Frey Road
  - Operate on dedicated guideway from south of Town Center Mall to Cumberland
  - Continue to the existing MARTA Arts Center Station
  - Include 14 stations
