As of the month ended February 2018, General Fund revenues were \$8.9M more than February 2017. The largest driver of that variance was the increase in property tax revenue due to a time difference in the collection of public utility tax of \$5.0M. This increase is just a timing difference, a large deposit came in earlier this year, but this variance is expected to be reduced by offset in future months. Additionally, other taxes had a positive variance of \$2.3M, which caused by an increase in insurance premium tax. There was also a \$2.9M increase in miscellaneous revenue, which was caused by the Braves' first of two \$3.05M for fiscal year 2018. The Braves are scheduled to make payments of \$3.05M in May and October. The payments began in May of 2017, therefore the County report one payment in fiscal year 2017. All fiscal years beginning with 2018, the County will report two payments, one in October and one in May.

Despite the overall increase in revenue, there are several revenue sources that are under performing. In licenses and permits, the business licenses revenue is currently \$1.8M less than the prior year's collections. It is very early in the collection period for business licenses revenue and collections will be monitored to confirm that the decrease is related to timing of collections.

As of the month-ended February 28, 2018, General Fund expenditures were approximately \$14.3 million more than the same period last year. The largest components of the increase were personnel services, debt service, and transfers out.

Personnel services increased \$7.5 million when compared to the same period last year. Salaries, including part-time hourly and per day positions, were \$4.6 million higher than in February FY17. A majority of the variance in full-time salaries is the result of a class and compensation study approved by the Board of Commissioner in FY17 and implemented in June 2017. The anticipated full year cost is \$10.3 million. The increase in personnel costs were anticipated and included as part of the FY18 adopted budget.

In addition, full-time salaries can be affected by the number of vacancies on the roster. The General Fund had 284 vacant positions on February 27, 2018. A vacancy report from the last payroll dated February 27, 2018 to September 30, 2014 can be found below:

	2/27/2018	1/30/2018	9/26/2017	6/20/2017	3/28/2017	12/20/2016	9/27/2016	9/29/2015	9/30/2014
General Fund	284	274	256	263	275	239	260	214	198

Personnel services were also affected by a \$2.8 million increase in various benefit expenditure accounts with the largest increase coming from medical interfund transfers for employee health benefits. The cost of employee health benefits are up \$1.1 million year to date compared to the previous fiscal year. In addition, the County's pension contribution is trending higher as the contribution rate stepped up from 19.68% to 20.14% in FY18 in order to reach the Annual Required Contribution. The increases in both medical Interfund transfers and pension contributions in FY17 were expected and budgeted accordingly.

Debt service expenditures increased \$3.7 million when compared to February 2017. The main driver of this are the escalating debt service payments in relation to the Cobb Marietta Exhibit Hall Authority Revenue Bonds, Series 2015 ("Stadium Bonds"). More specifically, the debt service payment made in February of 2017 was for interest only and totaled \$7.5 million. The debt service payment made in February of 2018 included interest of \$7.5 million and principal of \$3.7 million. Total debt service, principal and interest, for the Stadium Bonds will be approximately \$22.4 million annually for the remainder of the life of the bonds.

There are two important factors to note when discussing the Stadium Bonds. First, the Stadium Bond expenditures are recorded in the General Fund as a procedural step to simplify future accounting

Cobb County – Monthly Report February 2018

transactions. Second, there are associated revenues being transferred into the General Fund from the Cumberland Special Services District I and Cumberland Special Services District II to offset a majority of payments as well as a \$6.1 million annual payment from the Atlanta Braves.

Transfers out are approximately \$5.5 million more than in February 2017. The variance is related to the Transit Fund subsidy. To date, approximately \$5.4 million has been transferred from the General Fund to the Transit Funds to support operations. The variance is not anticipated to remain as the budgeted Transit Fund subsidy is approximately the same in FY18 as it was in FY17. In other words, the variance in the Transit Fund subsidy is the result of a timing difference.

Fire District Fund Analysis

The Fire District Fund's operating results through February of 2018 are very similar to 2017. There was an increase in property tax revenue due to a time difference in the collection of public utility tax of \$2.0M. On the expenditure side personnel has a positive variance of \$1.9M due the implementation of Pay Study, but most of that increase was offset by reductions to operating and capital expenditures. The February analysis indicates the Fire District Fund is stable and will finish the year within its budget assuming a property tax collection rate of 97% from February through November.

Debt Service Fund Analysis

The Debt Service Fund's operating results are improved over fiscal year 2017 through the month of February. The February 2017 debt service payment included the 2008 PARK Bond, 2007 Park Bond, and the 2005 General Obligation Bond. The February 2018 debt service payment included the final payment on the 2008 PARK Bond and the first payment on the 2017 Park Bonds. The February analysis indicates the Debt Service Fund is stable and will finish the year within its budget assuming a property tax collection rate of 97% from February through November. Based on the February analysis, the Debt Service Fund will have a fund balance at the end of fiscal year 2018 that will exceed the 2019 debt service requirements for the County's General Obligation Debt.

Transit Analysis

The Transit Fund's operating results through February of 2018 have generated a positive change in fund balance of \$2.6 million due to the increase in transfers in from the General Fund. The variance is due to the timing of service operator's invoices and grant revenue, specifically related to bus purchase from the Transit Capital Fund. The February analysis indicates the Transit Fund is stable and will finish the year within its budget.

Streetlight District Fund Analysis

The Streetlight District Fund has been placed on the watch list because the County committed to review the Streetlight District Fees after the fund reached its reserve fund balance goals. At the end of 2016 this fund surpassed those goals and now the fees need to be reevaluated. On February 27, 2018 the Board of Commissioners approved a five month suspension of streetlight services charges in order to reduce the fund balance in excess of reserves. That suspension of the service charges will be implemented in the summer of 2018.

Parking Deck Fund Analysis

The Parking Deck Fund has been placed on the watch list because in fiscal years 2013 and 2014 it had generated a negative change in fund balance and that decreased its fund balance to a concerning level. To help address the losses and required General Fund subsidy, beginning in February 2018 the County began an automated charging system. In February of 2018, the County began charging on evenings and Saturdays. Despite the additional chargeable hours, the parking deck only generated \$443.00 more in February 2018 than in February of 2017 for public parking, due to the tiered rate structure.
