

Post Oak Tritt Road at Hembree Road

Intersection Improvements

Cobb County...Expect the Best!

PROJECT FACT SHEET | MARCH 2017

Post Oak Tritt Road at Hembree Road

Project No. X2311 Intersection Improvements

The existing “T” intersection of Post Oak Tritt Road and Hembree Road is controlled by a stop sign on the minor street (Hembree Road). This intersection is in need of congestion relief and safety improvements to reduce the crash rate intensified by the high rate of travel.

The proposed project will replace an existing unsignalized intersection with a roundabout to improve traffic capacity while reducing traffic delays and vehicular speed through the intersection. The improvements will include raised medians, curb and gutter, sidewalk, and landscaping. The project will take into consideration the residential context of the area, the need for pedestrian crossings, and vehicular movements.

Project Quick Facts

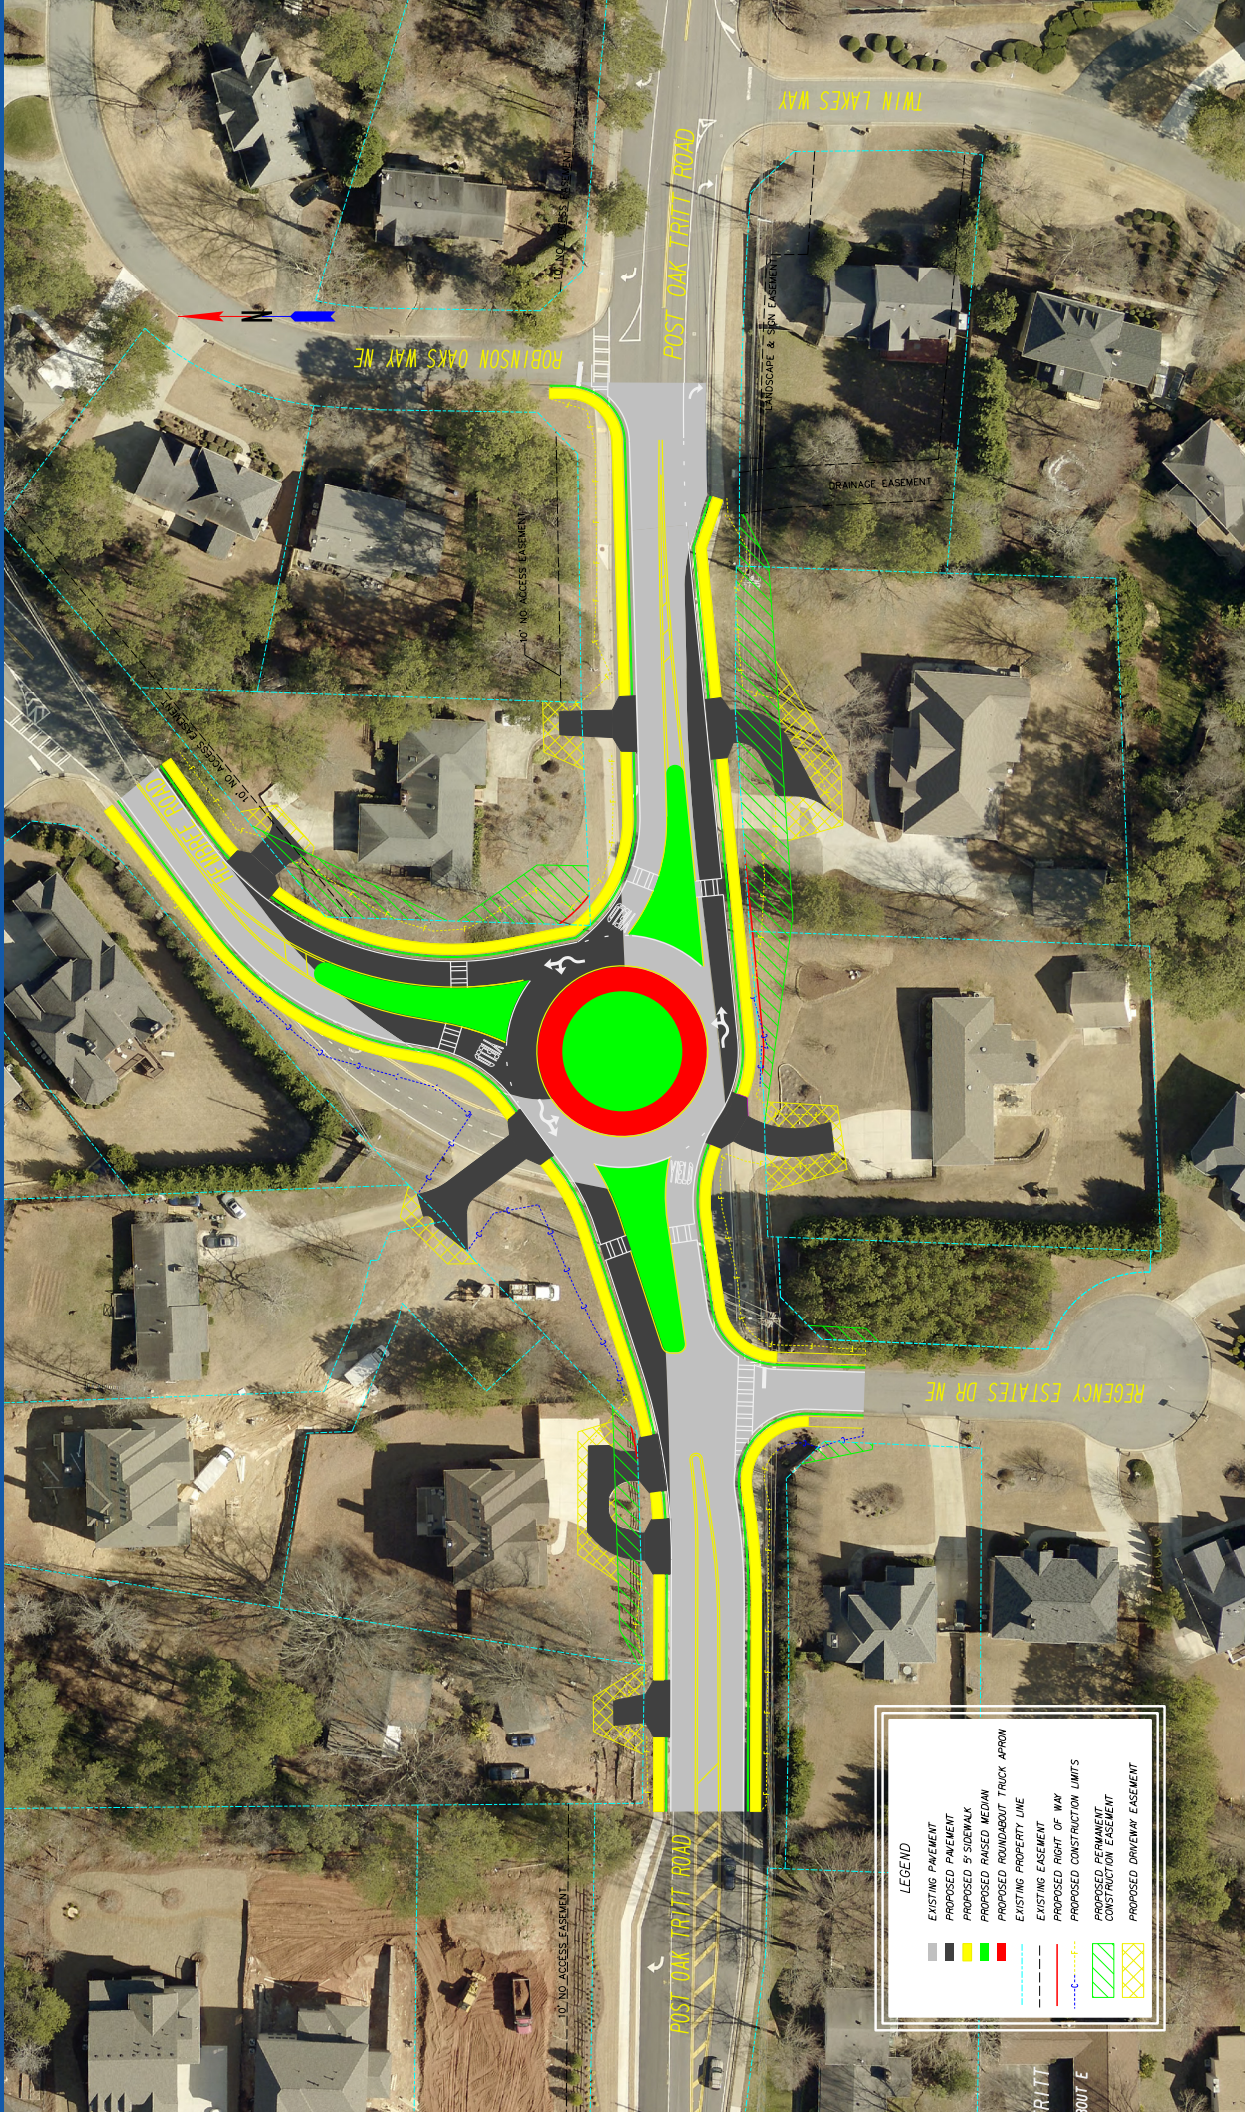

- Estimated start of right-of-way acquisition: Summer 2017
- Estimated start of construction: Spring 2018
- Estimated construction cost: \$1.4 million
- Funded as part of Cobb County’s 2016 Special Purpose Local Option Sales Tax (SPLOST)

See reverse side for diagram.
