

Water Use Reduction and Efficiency

Measure 22 - Government DCA Water First Community

5 Points

Become a DCA Water First Community

Discussion:

In 2005 Cobb County was recognized by the department of Community Affairs as a WaterFirst Community. In order to become a WaterFirst Community Cobb County has to exhibit a proactive commitment to preservation of our water resources through continued environmental stewardship and water utility best management practices. Additionally Cobb County regularly participates in the WaterFirst Program by assisting other communities and providing staff for community adjudications.

Documentation:

The following documentation is enclosed with this application:

- The Listing from DCA of Current WaterFirst Partners
- Copy of Our DCA issued sign designating Cobb County as a WaterFirst community since 2005 (DCA does not issue certificates).
