

Water Use Reduction and Efficiency

Measure 24 - Community Wastewater Management Plan

5 Points

Comply with the Metro Water District Wastewater Management Plan.

Discussion:

Cobb County actively participates in the Technical Coordinating Committee for the Metro Water District Wastewater Management Plan and complies with the Plan. Cobb has been a long time participant in the Plan and has been audited twice by Georgia EPD and found to be in compliance with the Plan.

Our most recent compliance audit is underway. Our checklist to renewing our standing in the Wastewater Management Plan was submitted in November, 2008. We are awaiting EPD's notification of approval.

Documentation:

The following documentation is enclosed with this application.

- Cobb County's most recent EPD Audit Checklist for the Long-Term Wastewater Plan, Water Supply and Water Conservation Plan, and the District-Wide Watershed Management Plan. Submitted November, 2008. This checklist is included under Measure 23.
