

# DEMOLITION EROSION COMPLIANCE

REV 09/24/2018

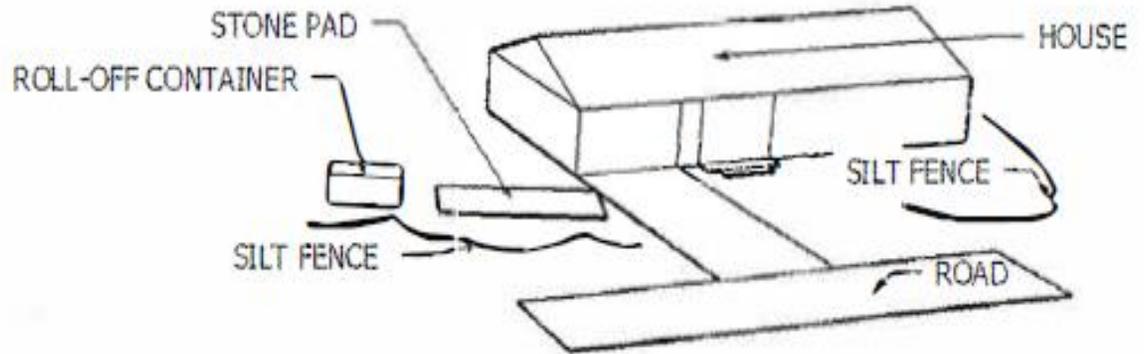

\*\*\*\* PLEASE CONTACT YOUR SITE INSPECTOR PRIOR TO REMOVING STRUCTURE \*\*\*\*

## INSPECTIONS ARE REQUIRED

Site Inspector: 770-528-2142

For Commercial Demo Only:

770-528-2157 -To obtain letter of completion

## PLEASE READ THE FOLLOWING INSTRUCTIONS

1. Install a 20ft. X 50ft. #34 stone pad with fabric liner, to be used for Roll-off Container pick-up & delivery. The pad shall NOT be used to place the container on. The pad is there to prevent trucks from tracking dirt into the street.
2. All disturbed areas are to be seeded & mulched upon completion of the demolition.
3. If the foundation is to remain, all areas 30" or greater must have permanent "Fall Protection" installed.
4. All utilities are to be disconnected, meters removed, sewer shall be properly & permanently capped & sealed to prevent the entrance of water. Septic tanks shall be pumped, cleaned & filled with suitable material.
5. All debris shall be removed, after demolition is complete.
6. The issuance of a permit does not grant permission to the owner, representative, or permit holder to proceed with the demolition prior to complying with all Georgia Rules & Laws relative to Air Quality, Solid Waste, Asbestos or other Environmental Contaminations. For more information regarding State of Georgia requirements, call EPD at 404-393-7026 or visit their website at [www.gaepd.org/Document/index\\_land.html](http://www.gaepd.org/Document/index_land.html)
