

Cobb FORWARD

Comprehensive Transportation Plan

JOIN US AT A PUBLIC MEETING ABOUT THE COUNTY'S TRANSPORTATION FUTURE!

Cobb County last completed a Comprehensive Transportation Plan (CTP) in 2015—and much has changed in that time! Population has increased, and transportation needs and opinions have shifted within the County and region. At the same time, new technologies and transportation solutions are now available that can enhance and transform Cobb's future transportation system. To update the CTP and leverage these new tools and strategies, the County and the Cities are embarking on CobbForward—the County's CTP for 2050.

CobbForward will result in a series of project lists that will position the County and Cities for future implementation. Some projects will form the transportation basis of the County's next Special Purpose Local Option Sales Tax (SPLOST) while other projects may be identified for potential future funding sources. Some projects may be elevated for consideration in the Regional Transportation Plan and compete for federal and state funds. Additionally, the CobbForward will include County transit recommendations that can be incorporated into the region's transit vision, which will be developed and managed by the newly formed Atlanta Transit Link Authority (The ATL).
